## Report of the Management Board

**Principal activities**

UniCredit Leasing SIA (hereinafter - "the Company") is a member of the UniCredit group. The Company operates in the Latvian market since 1999. The Company provides products of financing for assets (finance and operating lease) in Latvia, Lithuania and Estonia.

The Company's consolidated annual report was prepared by consolidating SIA UniCredit Insurance Broker, a subsidiary established on 14 January 2008, (hereinafter - "the subsidiary"), together with the Company referred to as "the Group". The subsidiary provides insurance brokerage services with the purpose to provide added value to the Company and its clients, as well as to minimize potential risks related to uninsured leasing objects.

**Performance of the Company in reporting year**

In 2010 despite the influence of the global economic crisis, the Company continued to operate following the guidelines of the UniCredit Leasing group. Due to sound management practices, the Company managed to further reduce the loss given existing lease portfolio to a level of good quality as well as managed to maintain high quality of new incoming leasing deals. As a result, the Company considerably increased its market share of new lease agreement sales in Latvia from 23 % in year 2009 to 27% in year 2010, thereby becoming Nr.1 in the leasing market. The Company also strengthened its position for development in the Baltic region by opening a branch in Estonia, Tallinn, which has substantially widened customer and partner base in Estonia during 2010.

Although the leasing market conditions in year 2010 were still extremely unfavorable, given the continuing economical downturn, the Company was focusing on the quality of products and services provided, targeting its current clients, as well as attracting new customers. The Company has also considerably strengthened its position in such important economy sectors as industrial leasing and commercial transportation becoming an indisputable expert in these fields.

**Financial risk management**

The Company's activities expose it to a variety of financial risks, including credit risk, foreign exchange risk, interest rate risk and liquidity risk. The Company's management seeks to minimize potential adverse effects of financial risk on the financial performance of the Company. The management of the Company's risks includes basic principles and provisions for the identification, evaluation, prevention and effective management of risks.

As far as credit risk is concerned, the Company has adopted a conservative and reasonable credit policy, which is built on the framework of the credit policies and guidelines of the UniCredit group, while also considering the peculiarities of the local market. The Company has introduced and now follows the credit policy of cooperating only with lessees with a sound credit history and not exceeding the credit limits set for each customer.

The Company's exposure to foreign exchange risk arises from various currency exposures, primarily because the majority of the Company's borrowings are denominated in EUR and USD whereas its portfolio of operating leases is revalued to Latvian Lats at the moment of recognizing the leased asset. During the last years the Company was aiming to minimize that risk by not providing operate lease deals in USD and controlling the number of deals in EUR. As a result the proportion of such operating lease deals became insignificant.

The Company's borrowings have variable interest rates. The management of the Company reduces the effect of interest rate risk when selling lease products by matching the interest rate type of the borrowing facility with the interest rate type of the financial facility provided to the end customer.

The Company pursues liquidity risk management by maintaining sufficient credit resources that enable it to settle liabilities when they fall due. Therefore, the management of the Company considers that the Company will have cash resources and its liquidity will not be endangered.

**Loss for the year - proposal by the Management Board**

The Management Board proposes that the shareholders approve the Financial Statements for the reporting year according to which the Company's and the Group's total assets are LVL 137 948 862, and LVL 137 952 559 respectively and a net loss LVL 232 242, and LVL 241 956 respectively. The Company's Management Board suggests that the loss for the year of the Company in the amount of LVL 232 242 should be covered from future period's profit of the Company.

Ralf Cymanek  
Chairman of the Supervisory Board

Jevgenijs Belezjaks  
Chairman of the Management Board

Riga, 15 March 2011

The accompanying notes on pages 12 to 51 are an integral part of these financial statements.

The financial statements on pages 5 to 51 have been authorized for issue by the Management Board on 15 March 2010 and signed on their behalf by:

Ralf Cymarek  
Chairman of the Supervisory Board

Jevgenijs Belezjaks  
Chairman of the Management Board

**Notes to the Consolidated Financial Statements****GENERAL INFORMATION**

The consolidated financial statements include the financial statements of UniCredit Leasing SIA, registered in Mukusalas 41b, Riga, LV-1004, Republic of Latvia, its branch in Estonia (hereinafter (the "Company") and a subsidiary, UniCredit Insurance Broker SIA, registered in Mukusalas 41b, Riga, LV-1004, Republic of Latvia and its branch in Estonia (together referred to as the "Group").

UniCredit Leasing SIA is a member of the UniCredit Group, which has been operating in the Latvian market since 1998. The Company provides products of financing for assets (finance and operating lease) in Latvia, Estonia and Lithuania.

The shareholders of the Company are UniCredit Global Leasing S.p.A. which holds 95% of the share capital and A/S UniCredit Bank, which holds 5% of the share capital. The Company's ultimate controlling party as at 31 December 2010 and 2009 was UniCredit S.p.A. which is listed.

**BASIS OF PREPARATION****Statement of compliance**

The financial statements of the Company and the Group have been prepared in accordance with the International Financial Reporting Standards (IFRSs) as adopted by the European Union.

The financial statements were authorized for issue by the Board of Management on 7 March 2011. The shareholders have the power to reject the financial statements prepared and presented by management and the right to request that new financial statements be prepared.

**Basis of measurement**

The financial statements of the Company and the Group have been prepared on the historical cost basis. The Company and the Group do not have financial instruments at fair value through profit or loss and available-for-sale assets as at 31 December 2010 and 31 December 2009.

**Basis of consolidation**

For the purposes of the Group consolidated financial statements, subsidiaries are those enterprises controlled by the Company. Control exists when the Company has the power, directly or indirectly, to govern the financial and operating policies of an enterprise so as to obtain benefits from its activities. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control effectively commences until the date that control effectively ceases.

Intra-group transactions and unrealized profit arising from intra-group transactions are excluded in the course of consolidation. Unrealized losses are eliminated similarly except that such losses are eliminated to the extent that there is no evidence of impairment.

**Functional and Presentation Currency**

The financial statements are presented in Latvian lats (LVL) being the functional currency of the Company and the Group, unless otherwise stated.

**SIGNIFICANT ACCOUNTING POLICIES****Use of estimates and judgments**

The preparation of financial statements in conformity with the IFRSs as adopted by the EU requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

Key sources of estimation uncertainty:

**Impairment of investments in finance lease, operating lease assets, loans issued and trade receivables**

The specific allowances for impairment applies to financial assets evaluated individually for impairment and is based upon management's best estimate of the present value of the cash flows that are expected to be received. In estimating these cash flows, management makes judgments about a counterparty's financial position and the net realizable value of any underlying collateral. Each impaired asset is assessed on its merits, and the workout strategy and estimate of cash flows considered recoverable are independently approved by the Credit Risk function.

Collectively assessed impairment allowance cover credit losses inherent in portfolio of loans and leases with similar credit risk characteristics when there is objective evidence to suggest that they contain impaired loans, but individual impaired items cannot yet be identified. In assessing the need for collective loss allowances, management considers factors such as credit quality, portfolio size, concentration and economic factors. In order to estimate the required allowance, assumptions are made to define the way inherent losses are modeled and to determine the required input parameters, based on historical experience and current economic conditions. The accuracy of the allowance depends on the estimates of future cash flows for specific counterparty allowance and the model assumptions and parameters used in determining collective allowance.

**Deferred tax asset recognition**

A deferred tax asset is recognized to the extent that it is probable that taxable profits will be available against which the deductible temporary differences can be utilised.

**Adoption of new and/or changed IFRSs and IFRIC interpretations**

*New and amended standards, and interpretations mandatory for the first time for the financial year beginning 1 January 2010 but not currently relevant to the Company and the Group*

*IFRIC 9, 'Reassessment of embedded derivatives' and IAS 39, 'Financial instruments: Recognition and measurement', effective 1 July 2009* This amendment to IFRIC 9 requires an entity to assess whether an embedded derivative should be separated from a host contract when the entity reclassifies a hybrid financial asset out of the 'fair value through profit or loss' category. This assessment is to be made based on circumstances that existed on the later of the date the entity first became a party to the contract and the date of any contract amendments that significantly change the cash flows of the contract. If the entity is unable to make this assessment, the hybrid instrument must remain classified as at fair value through profit or loss in its entirety.

*IAS 1 (amendment), 'Presentation of financial statements'* The amendment clarifies that the potential settlement of a liability by the issue of equity is not relevant to its classification as current or non-current. By amending the definition of current liability, the amendment permits a liability to be classified as non-current (provided that the entity has an unconditional right to defer settlement by transfer of cash or other assets for at least 12 months after the accounting period) notwithstanding the fact that the entity could be required by the counterparty to settle in shares at any time.

**New Standards and Interpretations not yet adopted**

*A number of new standards, amendments to standards and interpretations are not yet effective for the year ended 31 December 2010, and have not been applied in preparing these financial statements:*

*Revised IAS 24 'Related Party Disclosure' (effective for annual periods beginning on or after 1 January 2011)* The amendment exempts government-related entities from the disclosure requirements in relation to related party transactions and outstanding balances, including commitments, with (a) a government that has control, joint control or significant influence over the reporting entity; and (b) another entity that is a related party because the same government has control, joint control or significant influence over both the reporting entity and the other entity. The revised Standard requires specific disclosures to be provided if a reporting entity takes advantage of this exemption. The revised Standard also amends the definition of a related party which resulted in new relations being included in the definition, such as, associates of the controlling shareholder and entities controlled, or jointly controlled, by key management personnel. Revised IAS 24 is not expected to result in new relations requiring disclosure in the Company's and the Group's financial statements.

*Amendment to IFRIC 14 IAS 19 'The Limit on a Defined Benefit Asset, Minimum Funding Requirements and their Interaction' (effective for annual periods beginning on or after 1 January 2011)* The amendment of IFRIC 14 addresses the accounting treatment for prepayments made when there is also a minimum funding requirements (MFR). Under the amendments, an entity is required to recognize certain prepayments as an asset on the basis that the entity has a future economic benefit from the prepayment in the form of reduced cash outflows in future years in which MFR payments would otherwise be required. The amendments to IFRIC 14 is not relevant to the Company's and the Group's financial statements as the Company and the Group does not have any defined benefit plans with minimum funding requirements.

*IFRIC 19 Extinguishing Financial Liabilities with Equity Instruments (effective for annual periods beginning on or after 1 July 2010)* The Interpretation clarifies that equity instruments issued to a creditor to extinguish all or part of a financial liability in a 'debt for equity swap' are consideration paid in accordance with IAS 39.41. The initial measurement of equity instruments issued to extinguish a financial liability is at the fair value of those equity instruments, unless that fair value cannot be reliably measured, in which case the equity instrument should be measured to reflect the fair value of the financial liability extinguished. The difference between the carrying amount of the financial liability (or part of the financial liability) extinguished and the initial measurement amount of equity instruments issued should be recognized in profit or loss. The Company and the Group did not issue equity to extinguish any financial liability during the current period. Therefore, the Interpretation will have no impact on the comparative amounts in the Company's and the Group's financial statements for the year ending 31 December 2010. Further, since the Interpretation can relate only to transactions that will occur in the future, it is not possible to determine in advance the effects the application of the Interpretation will have.

*Amendment to IAS 32 'Financial Instruments: Presentation – Classification of Rights Issues' (effective for annual periods beginning on or after 1 February 2010)* The amendment requires that rights, options or warrants to acquire a fixed number of the entity's own equity instruments for a fixed amount of any currency are equity instruments if the entity offers the rights, options or warrants pro rata to all of its existing owners of the same class of its own non-derivative equity instruments. The amendments to IAS 32 are not relevant to the Company's and the Group's financial statements as the Company and the Group has not issued such instruments at any time in the past.

## UNICREDIT LEASING SIA COMPANY SEPARATE AND GROUP CONSOLIDATED ANNUAL REPORT FOR 2010

### Leases

#### Finance leases

A finance lease is a lease that transfers substantially all the risks and rewards incidental to ownership of an asset to the lessee. Title may or may not eventually be transferred.

When assets are held subject to finance lease, the present value of the net minimum lease payments is recognised as a receivable. The difference between the gross receivable and the present value of the receivable is recognised as unearned finance income.

For more details on accounting for finance lease as a financial instrument classified as Loans and receivables, refer to the accounting policy on financial instruments.

#### Operating leases

An operating lease is a lease other than a finance lease.

Assets that are leased under operating lease terms are recorded within property and equipment at historical cost less accumulated depreciation and impairment loss, if any. Depreciation is calculated on a straight-line basis to write down each asset to its estimated residual value over its estimated useful life, applying the norms applicable for the similar property and equipment of the Company and the Group.

The minimum lease installments consist of the aggregate amount of all installments, which the Company or the Group expect to receive during the lifetime of the leasing agreement as well as of the guaranteed amount of the residual value of the leased asset.

### Financial instruments

#### Classification

*Financial instruments at fair value through profit or loss* are financial assets or liabilities that are acquired or incurred principally for the purpose of selling or repurchasing in the near term; or that are part of a portfolio of identified financial instruments that are managed together and for which there is evidence of a recent actual pattern of short-term profit-taking; or that are a derivative (except for a derivative that is a designated and effective hedging instrument); or that are upon initial recognition, designated by the entity as at fair value through the profit or loss. Derivatives are also categorised as financial instruments at fair value through profit and loss unless they are designated as hedging instrument for hedge accounting purposes.

During 2010, the Company and the Group did not apply hedge accounting.

*Held-to-maturity investments* are non-derivative financial assets with fixed or determinable payments and fixed maturity that the Company or the Group has the positive intention and ability to hold to maturity, and which are not designated at fair value through profit or loss, or available for sale.

*Available-for-sale assets* are those financial assets that are designated as available-for-sale or are not classified as loans and receivables, held-to-maturity investments or financial instruments at fair value through profit or loss.

*Loans and receivables* are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. For the purposes of these financial statements, loans and receivables include regular loans, credit card balances, and are accounted for at amortized cost using the effective interest method. Certain expenses, such as legal fees or sales commissions for employees acting as agents or other expenses that are incurred in securing a loan are treated as part of the cost of the transaction.

Liabilities at amortised cost include deposits and balances to banks and current accounts and deposits from customers.

All regular way purchases and sales of investment securities are recognised at the settlement date, which is the date that an asset is delivered to or by an enterprise.

#### Recognition

Financial assets and liabilities are recognized in the statement of financial position when the Bank or the Group becomes a party to the contractual provisions of the instrument. All regular way purchases of financial assets are accounted for at the settlement date.

#### Measurement

A financial asset or liability is initially measured at its fair value plus, in the case of a financial asset or liability not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition or issue of the financial asset or liability.

Subsequent to initial recognition, financial assets are measured at their fair values, without any deduction for transaction costs that may be incurred on sale or other disposal, except for:

- held-to-maturity investments and loans and receivables that are measured at amortised cost using the effective interest method; and
- investments in equity instruments that do not have a quoted market price in an active market and whose fair value cannot be reliably measured which are measured at cost

All financial liabilities, other than those designated at fair value through profit or loss and financial liabilities that arise when a transfer of a financial asset carried at fair value does not qualify for derecognition, are measured at amortised cost. Amortised cost is calculated using the effective interest method. Premiums and discounts, including initial transaction costs, are included in the carrying amount of the related instrument and amortised based on the effective interest rate of the instrument

**Fair value measurement principles**

Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction on the measurement date.

When available, the Company and the Group measure the fair value of an instrument using quoted prices in an active market for that instrument. A market is regarded as active if quoted prices are readily and regularly available and represent actual and regularly occurring market transactions on an arm's length basis.

The best evidence of the fair value of a financial instrument at initial recognition is the transaction price, i.e., the fair value of the consideration given or received, unless the fair value of that instrument is evidenced by comparison with other observable current market transactions with the same instrument (i.e., without modification or repackaging) or based on a valuation technique whose variables include only data from observable markets. When transaction price provides the best evidence of fair value at initial recognition, the financial instrument is initially measured at the transaction price and any difference between this price and the value initially obtained from a valuation model is subsequently recognised in income statement depending on the individual facts and circumstances of the transaction but not later than when the valuation is supported wholly by observable market data or the transaction is closed out.

Assets and long positions are measured at a bid price; liabilities and short positions are measured at an asking price. Where the Company and the Group have positions with offsetting risks, mid-market prices are used to measure the offsetting risk positions and a bid or asking price adjustment is applied only to the net open position as appropriate. Fair values reflect the credit risk of the instrument and include adjustments to take account of the credit. Fair value estimates obtained from models are adjusted for any other factors, such as liquidity risk or model uncertainties, to the extent that the Company or the Group believes a third-party market participant would take them into account in pricing a transaction.

**Gains and losses on subsequent measurement**

A gain or loss arising from a change in the fair value of a financial asset or liability is recognised as follows:

- a gain or loss on a financial instrument classified as at fair value through profit or loss is recognised in the income statement;
- a gain or loss on an available-for-sale financial asset is recognised directly in other comprehensive income (except for impairment losses) until the asset is derecognised, at which time the cumulative gain or loss previously recognised in other comprehensive income is recognised in the income statement. Interest in relation to an available-for-sale financial asset is recognised as earned in the income statement calculated using the effective interest method

For financial assets and liabilities carried at amortised cost, a gain or loss is recognised in the income statement when the financial asset or liability is derecognised or impaired, and through the amortisation process.

**Derecognition**

A financial asset is derecognised when the contractual rights to the cash flows from the financial asset expire or when the Company and the Group transfer substantially all of the risks and rewards of ownership of the financial asset. Any rights or obligations created or retained in the transfer are recognised separately as assets or liabilities. A financial liability is derecognised when it is extinguished.

The Company and the Group also derecognise certain assets when it writes off balances pertaining to the assets deemed to be uncollectible.

**Offsetting**

Financial assets and liabilities are offset and the net amount reported in the statement of financial position when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously.

**Recognition of income and expenses**

Net revenue represents interest income from finance leases, rental income from operating leases and income recognised in the reporting year out of administration fees and down payments.

Interest income from finance leases is allocated over the lease term and is recognised in the income statement using the effective interest rate method. The effective interest rate is the rate that exactly discounts the estimated future cash payments and receipts through the expected life of the financial asset or liability. When calculating the effective interest rate, the Company and the Group estimates future cash flows considering all contractual terms of the financial instruments, but not future credit losses.

Fees and commission income and expenses that are integral part to the effective interest rate on financial assets and liabilities are included in the measurement of the effective interest rate.

Fees and commission income is recognised as the related services are performed. When a loan commitment is not expected to result in the draw-down of a loan, the related loan commitment fees are recognised on a straight-line basis over the commitment period.

Rental income from operating leases and advance payments received on operating leases are recognised on a straight-line basis over the lease term.

All interest income and expenses are recognised on an accrual basis.

Other income and expense items are recognized when the corresponding service has been provided.

## UNICREDIT LEASING SIA COMPANY SEPARATE AND GROUP CONSOLIDATED ANNUAL REPORT FOR 2010

### Foreign currency

Transactions in foreign currencies are translated into the functional currency of the Company and its subsidiary at the exchange rate set by the Bank of Latvia at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the reporting date are retranslated into the functional currency at the spot exchange rate at that date. The foreign currency gain or loss on monetary items is the difference between amortised cost in the functional currency at the beginning of the period, adjusted for effective interest and payments during the period, and the amortised cost in foreign currency translated at the exchange rate at the end of the period. Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are retranslated into the functional currency at the spot exchange rate at the date that the fair value is determined.

Profit or loss relating to fluctuations in the exchange rate on assets and liabilities denominated in a foreign currency are recognized in the statement of comprehensive income in the period in which the fluctuation occurs. Foreign exchange rates for the key currencies at the end of the reporting period were the following.

|       | 31 December 2010 | 31 December 2009 |
|-------|------------------|------------------|
|       | LVL              | LVL              |
| 1 USD | 0.535000         | 0.489000         |
| 1 EUR | 0.702804         | 0.702804         |
| 1 EEK | 0.044900         | 0.044900         |
| 1 LFL | 0.203000         | 0.204000         |
| 1 SEK | 0.078200         | 0.067800         |

### Provisions

A provision is recognized if, as a result of past event, the Company or the Group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. As at 31 December 2010 and 31 December 2009 the Company and the Group have created provisions for unused vacations, bonuses and implementation of a software.

### Short-term employee benefits

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognised for the amount expected to be paid under short-term cash bonus or profit sharing plans if the Company or the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

### Intangible assets

Intangible assets, which are acquired by the Company or the Group, are stated at cost less accumulated amortisation and impairment losses. Acquired computer software licenses are capitalised on the basis of the costs incurred to acquire and bring to use the specific software. Amortisation is calculated on a straight-line basis over its useful life, applying the following rates set by the management:

|          | % per annum |
|----------|-------------|
| Licences | 20 - 33     |
| Software | 20 - 35     |

### Property and equipment

Property and equipment are recorded at historical cost net of accumulated depreciation and impairment losses, if any. Depreciation is calculated on a straight-line basis to write down each asset to its estimated residual value over its estimated useful life using following rates set by management:

|                  | % per annum |
|------------------|-------------|
| Office equipment | 20 - 35     |
| Computers        | 35          |
| Vehicles         | 20          |
| Others           | 20          |

Repairs and maintenance are charged to the profit and loss during the period in which they are incurred. The cost of major renovation is included in the carrying amount of the asset and is depreciated over the remaining useful life of the related asset.

Leasehold improvements are amortised on a straight-line basis over the shorter of estimated useful life of the leasehold improvement and the term of the lease.

Gains or losses on disposals are determined by comparing carrying amounts with proceeds and are charged to the profit and loss account during the period in which they are incurred/earned.

The useful lives, depreciation rates and method of depreciation are reviewed at each financial reporting date.

### Investments in subsidiaries

Subsidiaries are entities controlled by the Company or the Group. Control exists when the Company or the Group has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. In assessing control, potential voting rights that presently are exercisable are taken into account. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases. The financial statements have been prepared using uniform accounting policies for like transactions and other events in similar circumstances.

The Company has an investment, at cost, in its subsidiary UniCredit Broker SIA of LVL 10 600.

### Dividends

Proposed dividends are recognised in the financial statements only when approved by the shareholders.

### Repossessed assets

As part of the normal course of business the Company from time to time takes possession of assets that originally were leased out under finance lease terms. When the Company acquires (i.e. gains full title to) an asset in this way, the asset is not accounted for separately; however the debt is offset or reduced by the value of the asset. The residual is impaired completely and the debt still exist legally.

### Share-based payment transactions

The fair value of options, as at grant date, granted to employees is recognized as an employee expense, with a corresponding increase in other comprehensive income, over the period in which the employees become unconditionally entitled to the options. The amount recognised as an expense is adjusted to reflect the number of share options for which the related service and non-market performance vesting conditions are expected to be met, such that the amount ultimately recognized as an expense is based on the number of share options that do meet the related service and non-market performance conditions at the vesting date.

The fair value of the amount payable to employees in respect of share appreciation rights that are settled in cash is recognised as an expense with a corresponding increase in liabilities, over the period in which the employees become unconditionally entitled to payment. The liability is remeasured at each reporting date and at settlement date. Any changes in the fair value of the liability are recognized as personnel expenses in profit and loss.

Stock Options' the fair value are measured by applying the "Hull and White" model. This model is based on a trinomial tree price distribution using the Boyle's algorithm and estimates the early exercise probability on the basis of a deterministic model connected to:

- reaching a market share value equals to an exercise price multiple;
- probability beneficiaries' early exit after the end of the vesting period.

Performance Shares are a type of stock option plans with equity-settled share-based payments. The fair value is equal to the market price of the share minus the present value of dividends not allocated in the period running from the grant date to the share settlement date.

### Recognition of forfeiting transactions

Selected lease receivables under finance lease and operating lease contracts are forfeited to UniCredit Bank AS - the rights to the lease receivables under the selected agreements are sold to UniCredit Bank AS and UniCredit Bank AS Estonian Branch. After the forfeiting, the Company administers the forfeited lease agreements. The revenues from the forfeiting deals, except for the residual value of the respective forfeited property and equipment, is recognised as accounts payable on forfeited deals in the statement of financial position. The deferred income from forfeiting deals is recognised in the profit and loss account on a straight-line basis over the remaining lease term after the forfeiting transaction has been performed. As at 31 December 2010 accounts payable for forfeited deals amount to LVL 384 281 (2009: LVL 206 114).

### Impairment

#### Financial assets

At each reporting date the Company and the Group assess whether there is objective evidence that financial assets not carried at fair value through profit or loss are impaired. Financial assets are impaired when objective evidence demonstrates that a loss event has occurred after the initial recognition of the asset, and that the loss event has an impact on the future cash flows of the asset that can be estimated reliably.

Objective evidence that financial assets are impaired can include default or delinquency by a borrower, restructuring of a loan or advance by the Company or the Group on terms that the Company or the Group would not otherwise consider, indications that a borrower or issuer will enter bankruptcy, the disappearance of an active market for a security, or other observable data relating to a group of assets such as adverse changes in the payment status of borrowers or issuers in the group, or economic conditions that correlate with defaults in the group. In addition, for an investment in an equity security, a significant or prolonged decline in its fair value below its cost is objective evidence of impairment.

The Company and the Group consider evidence of impairment for leases at both a specific asset and collective level. All individually significant leases are assessed for specific impairment. All individually significant leases found not to be specifically impaired are then collectively assessed for any impairment that has been incurred but not yet identified. Leases that are not individually significant are collectively assessed for impairment by grouping together leases with similar risk characteristics.

## UNICREDIT LEASING SIA COMPANY SEPARATE AND GROUP CONSOLIDATED ANNUAL REPORT FOR 2010

In assessing collective impairment the Company and the Group use statistical modelling of historical trends of the probability of default, timing of recoveries and the amount of loss incurred, adjusted for management's judgement as to whether current economic and credit conditions are such that the actual losses are likely to be greater or less than suggested by historical modelling. Default rates, loss rates and the expected timing of future recoveries are regularly benchmarked against actual outcomes to ensure that they remain appropriate.

Impairment losses on assets carried at amortised cost are measured as the difference between the carrying amount of the financial asset and the present value of estimated future cash flows discounted at the asset's original effective interest rate. Losses are recognised in income statement and reflected in an allowance account against loans and advances. Interest on the impaired asset continues to be recognised through the unwinding of the discount. When a subsequent event causes the amount of impairment loss to decrease, the decrease in impairment loss is reversed through income statement.

### Non-financial assets

The carrying amounts of the Company's and the Group's non-financial assets, other than deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. The recoverable amount of goodwill, if any, is estimated at each reporting date.

An impairment loss is recognised if the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. A cash-generating unit is the smallest identifiable asset group that generates cash flows that largely are independent from other assets and groups. Impairment losses are recognised in income statement. Impairment losses recognised in respect of cash-generating units are allocated first to reduce the carrying amount of any goodwill allocated to the units and then to reduce the carrying amount of the other assets in the unit (group of units) on a pro rata basis.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

An impairment loss in respect of goodwill is not reversed. In respect of other assets, impairment losses recognised in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

### Calculation of recoverable amount

The recoverable amount of the Company's and the Group's loans and finance lease and other receivables is calculated as the present value of expected future cash flows, discounted at the original effective interest rate inherent in the asset.

### Taxes

Income tax expense comprises current and deferred tax. Income tax expense is recognised in the income statement except to the extent that it relates to items recognised directly in equity or in other comprehensive income.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years.

Corporate income tax at the rate of 15% is calculated in accordance with Latvian tax regulations and is based on the taxable profit reported for the taxation period. The financial result of the Estonian branch is included in the corporate income tax calculation in accordance with Latvian tax regulations on corporate income tax.

Deferred tax is provided for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognised for the following temporary differences: the initial recognition of goodwill, the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss, and differences relating to investments in subsidiaries to the extent that they probably will not reverse in the foreseeable future. Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilised. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

### Cash and cash equivalents

Cash and cash equivalents include notes and coins on hand, unrestricted balances held with banks and highly liquid financial assets with original maturities of less than three months, which are subject to insignificant risk of changes in their fair value, and are used by the Company and the Group in the management of short-term liabilities and commitments.

## UNICREDIT LEASING SIA COMPANY SEPARATE AND GROUP CONSOLIDATED ANNUAL REPORT FOR 2010

### Related parties

Related parties represent both legal entities and private individuals related to the company in accordance with the following rules

A party is treated as related to the company if:

- The party and the Company are under common control by a single Group (Related companies):  
Group is a group of companies including a group parent company and its subsidiaries. The Company is the Group parent company. Related companies include the Company's subsidiaries and subsidiaries of the subsidiaries.
- The party is a private individual who has direct or indirect control over the Company;
- The party represents an investment in the Company which enables it to exercise significant influence in the Company and which is effected through not less than 20 but not more than 50 per cent of voting rights in the Company (the Company is an associated company to the Party);
- The party has a common control over the Company (the Company is a joint venture to the Party);
- The party is associated to the Company;
- The party is a joint venture where the Company is a member of the joint venture;
- The party is a member of key management of the Company or its parent company;
- The party is a close relative to any individual referred to in b), c), d) or g);
- The party is a company which is controlled, commonly controlled or under a significant influence of private individuals referred to in b), c), d), g) and h), or which directly or indirectly holds significant voting rights through intermediation of a private individual referred to in b), c), d), g) and h);
- The party is a post-employment benefit plan for the benefit of the staff of the Company or any other company which is a related party of the Company

Related parties are defined as Company's shareholders, corporate members of the UniCredit Group, members of the Board of Directors, their close relatives and companies in which have a significant influence or control. The ultimate parent company of the Company and the Group is UniCredit Global Leasing S.p.A.

### Risk and risk management

The Company's and the Group's activities expose it to a variety of financial risks, including credit risk, liquidity risk, currency risk and interest rate risk. The Company's and the Group's management seeks to minimize potential adverse effects of financial risk on the financial performance of the Company and the Group. The management of the Company's and the Group's risks includes basic principles and provisions for the identification, evaluation, prevention and effective management of risks.

#### Currency risk

Currency risk is defined as a risk arising from the differences in the currency structure of the Company's and the Group's assets and liabilities. Changes in currency exchange rates cause changes in the value of assets and liabilities as well as the amount of revenue and expenses calculated in local currency.

The Company and the Group take on exposure to the effects of fluctuations in foreign currency exchange rates on its financial position and cash flows. The Company and the Group seek to match its assets, liabilities and memorandum items denominated in foreign currencies in order to avoid significant foreign currency exposures. The LVL is currently pegged to the Euro. Changes in government policy on the peg, if any, would increase the foreign currency risk.

A 20 percent strengthening of the lat against the following currencies as at 31 December would have increased (decreased) net profit by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant. The analysis is performed on the same basis for 2010 and 2009

|                                  | Net Income/Other comprehensive income, LVL |
|----------------------------------|--------------------------------------------|
| <b>Company, 31 December 2010</b> |                                            |
| USD                              | (65 444)                                   |
| LUR                              | 485 542                                    |
| EEK                              | (11 550)                                   |
| <b>Group, 31 December 2010</b>   |                                            |
| USD                              | (65 444)                                   |
| EUR                              | 483 375                                    |
| EEK                              | (10 968)                                   |
| <b>Company, 31 December 2009</b> |                                            |
| USD                              | (151 041)                                  |
| EUR                              | 1 761 417                                  |
| EEK                              | (126 724)                                  |
| <b>Group, 31 December 2009</b>   |                                            |
| USD                              | (151 041)                                  |
| EUR                              | 1 758 154                                  |
| EEK                              | (127 276)                                  |

A 20 percent depreciation of the lat against the above currencies at 31 December would have had the equal but opposite effect on the above currencies to the amounts shown above, on the basis that all other variables remain constant.

Currency analysis of Company's and Group's financial assets and financial liabilities are disclosed in Note 30

#### Interest rate risk

Interest rate risk ("IRR") is defined as a risk of sudden unfavourable changes in interest rates that might affect the revenue generated by the Company and the Group. The risk arises because of the differences in the maturity terms of the Company's and

**UNICREDIT LEASING SIA COMPANY SEPARATE AND GROUP CONSOLIDATED ANNUAL REPORT FOR 2010**

the Group's assets and liabilities, or because of the adjustment of the interest rates thereof on a regular basis. Interest risk management includes analysis and management of the interest risk of all of the Company's and Group's assets and liabilities.

The following demonstrates the sensitivity to reasonably possible changes in the interest rates of the Company's and the Group's income statement. The analysis assumes that all other variables, in particular foreign currency rates, remain constant.

The sensitivity of the income statement is the effect of the assumed changes in the interest rates on the net interest income for one year, following the balance sheet date, based on the floating rate non-trading financial assets and financial liabilities held at 31 December 2010 and 31 December 2009.

There were no financial instruments held by the Company and the Group as at 31 December 2010 and 31 December 2009, for which there would be any effect on other comprehensive income resulting from changes in interest rates

An increase and decrease of the interest rates by 100 basis points would result in the following change to the income statement, the effect on the other comprehensive income would be the same:

| Company                  | Net income<br>2010<br>LVL | Other<br>comprehensive<br>income<br>2010<br>LVL | Net income<br>2009<br>LVL | Other<br>comprehensive<br>income<br>2009<br>LVL |
|--------------------------|---------------------------|-------------------------------------------------|---------------------------|-------------------------------------------------|
| 100 bp parallel increase | (41 809)                  | (41 809)                                        | (126 009)                 | (126 009)                                       |
| 100 bp parallel decrease | 41 809                    | 41 809                                          | 126 009                   | 126 009                                         |

| Group                    | Net income<br>2010<br>LVL | Other<br>comprehensive<br>income<br>2010<br>LVL | Net income<br>2009<br>LVL | Other<br>comprehensive<br>income<br>2009<br>LVL |
|--------------------------|---------------------------|-------------------------------------------------|---------------------------|-------------------------------------------------|
| 100 bp parallel increase | (42 567)                  | (42 567)                                        | (126 083)                 | (126 083)                                       |
| 100 bp parallel decrease | 42 567                    | 42 567                                          | 126 083                   | 126 083                                         |

Repricing maturity analysis showing the earlier of the interest rate contracted re-pricing dates or contractual maturity of financial assets and financial liabilities is disclosed in Note 29.

*Credit risk*

The Company and the Group take on exposure to credit risk, which is the risk that the counterparty will be unable to pay amounts when due. The Company and the Group structure the levels of credit risk undertaken by placing limits on the amount of risk accepted in relation to one borrower, or groups of related borrowers, and to industry segments. Such risks are monitored on a regular basis and are subject to monthly, quarterly and annual reviews. The Company and the Group have strict limits set in respect of different levels of authorisation for lease approvals together with approvals of any changes in the existing lease contracts.

Credit risk exposures are monitored through regular assessments of the borrowers' ability to meet interest payments and principal repayments and changing the limits set as appropriate.

For the proper risk mitigation techniques implementation, the Company and the Group have developed a set of credit policies and guidelines for the management of credit exposures and the Company's and the Group's credit policy establishes:

- Procedures for review and approval of loan/ credit applications;
- Methodology for the credit assessment of borrowers;
- Methodology for the assessment of counterparties, appraisal and insurance companies;
- Methodology for the evaluation of collateral;
- Credit documentation requirements;
- Procedures for the ongoing monitoring of loans and other credit exposures.

These policies include the provisions of necessity to pay attention to such important factors when analyzing the lessee as external ratings, if available, bank references and similar. In order to satisfy the credit process successfully, each particular deal has to be in compliance with the benchmarks set by the credit policies and other methodological documentation.

*Liquidity risk*

Liquidity risk arises in the general funding of the Company's and the Group's activities and in the management of positions. It includes both the risk of being unable to fund assets at appropriate maturities and rates and the risk of being unable to liquidate an asset at a reasonable price and in an appropriate time frame.

The Company and the Group pursue liquidity risk management, maintaining sufficient credit resources to allow the settlement of liabilities when they fall due. Therefore, management of the Company and the Group considers that the Company and the Group will have cash resources and its liquidity will not be endangered

Financial liabilities by maturity profile are disclosed in Note 31

*Capital management*

There are no capital regulatory requirements for leasing companies in Latvia; however, capital adequacy and the use of capital are monitored by the Company's and the Group's management internally

The Company's and the Group's policy is to support the Company's and the Group's ability to operate on a going concern basis so that it can provide return of shareholders when the leasing market conditions improve; to maintain the strong capital base to support the development of its business.

\*Collective impairment allowance as at 31 December 2010 and 31 December 2009 is attributed only to long-term part of investments in finance lease though it refers both to short-term and long-term part.

The Company uses a compound interest rate, which includes both fixed and variable interest rate (RIGIBOR, EURIBOR and LIBOR). Consequently, the determination of unearned interest income from net lease with purchase option attendant requirements are taken into account in the period at the end of the current variable interest rate.

All of the loans are issued in Latvia.

The specific and collective impairment created by the Company and The Group is attributable to investments in finance lease, loans and trade debtors. However, in the financial statements specific and collective impairment for the whole portfolio is attributed to investments in finance lease. Management considers that is not practicable to split specific and collective impairment between investments in finance lease portfolio, loans and trade debtors.

Long-term and short-term investments in finance lease represents the part of the total exposure of finance lease portfolio not yet invoiced and not yet due.

Trade receivables represent the part of the total exposure of finance lease portfolio that is invoiced and includes overdue payments on operating and finance lease agreements, as well as payments of finance and operating lease agreements due to be settled after the reporting period.

In the financial statements specific and collective impairment for the whole portfolio is attributed to investments in finance lease. Management considers that is not practicable to split specific and collective impairment between investments in finance lease portfolio and trade debtors.

## UNICREDIT LEASING SIA COMPANY SEPARATE AND GROUP CONSOLIDATED ANNUAL REPORT FOR 2010

Notes (continued)

## (17) SHAREHOLDERS' EQUITY

*Share capital*

Share capital as at 31 December 2010 amounts to LVL 3 914 000 (2009: LVL 400 000) and consists of 3 914 shares with a nominal value of LVL 1 000, all fully paid. Share capital was increased on 9 February 2010 by LVL 3 514 000.

All shares carry an equal right to vote at the shareholders' meeting, an equal right to receive dividends as declared from time to time and an equal right in the residual assets of the Company and the Group.

The shareholders as at 31 December 2010 and 2009 were as follows:

|                                 | 2010<br>%   | 2009<br>%   |
|---------------------------------|-------------|-------------|
| A/S "UniCredit Bank"            | 5%          | 49%         |
| UniCredit Global Leasing S.p.A. | 95%         | 51%         |
| <b>Total</b>                    | <b>100%</b> | <b>100%</b> |

**Statutory reserve**

The statutory reserve of LVL 448 000 represents distributable reserve, which were received from the shareholders in 2002 as a subsidy with the purpose of increasing shareholders' equity.

**Share-based payments**

Share options reserve of LVL 4 171 is attributed to an incentive plan based on UniCredito Italiano S.p.A shares (stock options and performance shares) recognized in equity, for which the fair value is calculated based on valuation models and market prices specified under accounting policies.

According to UniCredit Group Long-Term Incentive Plan of 2010, the Chairman of the Council (Janis Buks, resigned on 2 February 2011) and Chairman of the Board (Jevgenijs Belezjaks) have both stock options in amount of 12 365 shares with vesting period to June 2012, and performance shares in amount of 4 076 shares with vesting period to December 2011.

## (28) FAIR VALUE OF FINANCIAL ASSETS AND FINANCIAL LIABILITIES

The Company and the Group have performed an assessment of its financial instruments, as required by IFRS 7 Financial Instruments: Disclosures, to determine whether it is practicable within the constraints of timeliness and cost to determine their fair values with sufficient reliability.

The Company and the Group have no financial instruments at fair value through profit or loss or available-for-sale securities.

The estimated fair values of all other financial assets and liabilities are calculated using discounted cash flow techniques based on estimated future cash flows and discount rates for a similar instrument at 31 December 2010.

The estimates of fair value are intended to approximate the amount for which a financial instrument could be exchanged between knowledgeable, willing parties in an arm's length transaction. However, given the uncertainties and the use of subjective judgment, the fair value should not be interpreted as being realisable in an immediate sale of the assets or settlement of liabilities.

The estimated fair values of all financial instruments of the Company and the Group approximate their carrying values at 31 December 2010 and 2009.

## **Independent Auditors' Report**

### **To the shareholders of UniCredit Leasing SIA**

#### **Report on the Financial Statements**

We have audited the accompanying separate financial statements of UniCredit Leasing SIA ("the Company"), which comprise the separate statement of financial position as at 31 December 2010, the separate income statement, the separate statement of comprehensive income, the separate statement of changes in shareholders' equity and the separate statement of cash flows for the year then ended, and notes, comprising a summary of significant accounting policies and other explanatory notes, as set out on pages 5 to 51. We have also audited the accompanying consolidated financial statements of UniCredit Leasing SIA and its subsidiaries ("the Group"), which comprise the consolidated statement of financial position as at 31 December 2010, the consolidated income statement, the consolidated statement of comprehensive income, the consolidated statement of changes in shareholders' equity and the consolidated statement of cash flows for the year then ended, and notes, comprising a summary of significant accounting policies and other explanatory notes, as set out on pages 5 to 51.

#### *Management's Responsibility for the Financial Statements*

Management is responsible for the preparation and fair presentation of these separate and consolidated financial statements in accordance with International Financial Reporting Standards as adopted by the EU and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

#### *Auditors' Responsibility*

Our responsibility is to express an opinion on these separate and consolidated financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with relevant ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the Company's and the Group's preparation and fair presentation of the separate and consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's and the Group's internal control systems. An audit also includes evaluating the appropriateness of accounting principles used and the reasonableness of accounting estimates made by Company's and Group's management, as well as evaluating the overall presentation of the separate and consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### *Opinion*

In our opinion, the separate financial statements of UniCredit Leasing SIA present fairly, in all material respects the financial position of the Company as at 31 December 2010, and of its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards as adopted by the EU.

In our opinion, the consolidated financial statements UniCredit Leasing SIA present fairly, in all material respects the financial position of the Group as at 31 December 2010, and of its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards as adopted by the EU.

### **Report on Other Legal and Regulatory Requirements**

In addition, our responsibility is to assess whether the accounting information included in the Consolidated Management Report, as set out on page 4, the preparation of which is the responsibility of Management, is consistent with the consolidated financial statements. Our work with respect to the Consolidated Management Report was limited to the aforementioned scope and did not include a review of any information other than drawn from the consolidated financial statements. In our opinion, the management report is consistent with the consolidated financial statements.

# UNICREDIT LEASING SIA – ÄRIÜHINGU KONSOLIDEERIMATA JA KONTSERNI KONSOLIDEERITUD 2010. MAJANDUSAASTA ARUANNE

## Juhatuse aruanne

### Põhitegevus

UniCredit Leasing SIA (edaspidi: äriühing) on kontserni UniCredit Group liige. Äriühing on tegutsenud Läti turul 1999. aastast saadik. Äriühing pakub tooteid varade finantseerimiseks (kapitali- ja kasutusrent) Lätis, Leedus ja Eestis.

Äriühingu konsolideeritud majandusaasta aruanne on koostatud 14. jaanuaril 2008 asutatud tütarettevõtte SIA UniCredit Insurance Broker (edaspidi: tütarettevõtte; koos äriühinguga: kontsern) konsolideerimise teel. Tütarettevõtte osutab kindlustusmaakleri teenuseid, mille eesmärgiks on pakkuda äriühingule ja selle klientidele lisaväärtust ning minimeerida võimalikke riske, mis on seotud kindlustamata liisingusemetega.

### Äriühingu tulemused aruandeaastal

Hoolimata üleilmse majanduskriisi mõjust, jätkas äriühing 2010. aastal tegevust kontserni UniCredit Leasing suuniste kohaselt. Tänu nõuetekohastele juhtimistavadele õnnestus äriühingul olemasoleva liisinguportfelli head kvaliteeti arvestades kahjumit veelgi vähendada ning äriühing suutis säilitada uute liisingutehingute kvaliteeti. Selle tulemusena suurendas äriühing Lätis oluliselt oma uute liisingulepingute müügi turuosa 23%-lt 2009. aastal 27%-ni 2010. aastal, saavutades seeläbi liisinguturul juhtpositsiooni. Äriühing tugevdas samuti oma positsiooni tegevuse arendamisel Balti riikides, avades Eestis Tallinnas filiaali, mis on 2010. aastal oluliselt laiendanud klientide ja partnerite hulka Eestis.

Kuigi tingimused liisinguturul olid jätkuva majanduslanguse tõttu 2010. aastal endiselt äärmiselt ebasoodsad, pühendus äriühing toodete ja teenuste kvaliteedile ning võttis sihtrühmaks olemasolevad kliendid ja püüdis leida ka uusi kliente. Samuti tugevdas äriühing jõuliselt oma positsiooni sellistes tähtsates majandussektorites nagu tööstusettevõtetele osutatavad liisinguteenused ning äriplane transport, saades neis valdkondades väeldamatuks eksperdik.

### Finantsriski juhtimine

Äriühingu tegevus on avatud mitmetele finantsriskidele, sealhulgas krediidiriskile, valuutariskile, intressimäära riskile ja likviidsusriskile. Äriühingu juhtkond püüab minimeerida finantsriski võimalikke kahjulikke mõjusid äriühingu finantstulemustele. Äriühingu riskide juhtimine hõlmab riskide tuvastamiseks, hindamiseks, vältimiseks ning tõhusaks juhtimiseks kehtestatud põhimõtteid ja muid õigusnorme.

Krediidiriskiga seoses on äriühing heaks kiitnud konservatiivsed ja mõistlikud krediidi põhimõtted, mis tuginevad kontserni UniCredit Group krediidi põhimõtete ja suuniste raamistikule, kuid samas on arvestatud ka kohaliku turu eripärasid. Praegu järgitakse äriühingus kehtestatud põhimõtet, et koostööd tehakse vaid usaldusväärse krediidi ajalooga liisinguvõtjatega ja et igale kliendile määratud krediidi limiit ei ületata.

Äriühing on avatud erinevatele valuutariskidele eelkõige põhjusel, et enamik äriühingu võetud laenudest on fikseeritud eurodes ja USA dollarites, kusjuures äriühingu kasutusrendi portfelli arvestatakse liisitud vara kajastamise hetkel ümber Läti latti. Äriühingu eesmärk on viimastel aastatel olnud selle riski viimine miinimumini ning seega kasutusrenditehinguid USA dollarites ei sõlmita ja eurodes tehtavate tehingute arvu jälgitakse hoolikalt. Selle tulemusel on nimetatud kasutusrenditehingute osakaal kaduvväike.

Äriühingu võetud laenudel on muutuvad intressimäärad. Äriühingu juhtkond vähendab intressimäära riski mõju liisingutoodete müümisel nii, et võetud laenu intressimäära liik viiakse vastavusse lõppkliendile pakutava rahastamisvahendi intressimäära liigiga.

Äriühing püüab juhtida likviidsusrisiki piisavate krediidiressursside säilitamise teel, et olla suuteline kohustusi õigeaegselt täita. Seepärast leiab äriühingu juhtkond, et äriühing saab piisavalt raharessursse ning selle likviidsus ei ole ohus.

### Majandusaasta kahjum – juhatuse ettepanek

Juhatus teeb osanikele ettepaneku kinnitada äriühingu ja kontserni majandusaasta raamatupidamise aastaaruande järgmiste andmetega: koguvara vastavalt 137 948 862 Läti latti ja 137 952 559 Läti latti ning puhaskahjum vastavalt 232 242 Läti latti ja 241 956 Läti latti. Äriühingu juhatuse ettepaneku katta äriühingu kahjum summas 232 242 Läti latti äriühingu tulevaste perioodide kasumi arvelt.

## UNICREDIT LEASING SIA – ÄRIÜHINGU KONSOLIDEERIMATA JA KONTSERNI KONSOLIDEERITUD 2010. MAJANDUSAASTA ARUANNE

### Konsolideeritud raamatupidamise aastaaruande lisad

#### ÜLDTEAVE

Käesolev konsolideeritud raamatupidamise aastaaruanne koosneb äriühingu UniCredit Leasing SIA, registreeritud aadress Mükusalas 41b, Riia LV-1004, Läti Vabariik, ja selle Eesti filiaali (edaspidi: äriühing) ning tütarettevõtte UniCredit Insurance Broker SIA, registreeritud aadress Mükusalas 41b, Riia LV-1004, Läti Vabariik, ja selle Eesti filiaali (edaspidi koos: kontsern) raamatupidamise aastaaruandest.

Läti turul 1998. aastast saadik tegutsenud UniCredit Leasing SIA on kontserni UniCredit Group liige. Äriühing pakub tooteid varade finantseerimiseks (kapitali- ja kasutusrent) Lätis, Eestis ja Leedus.

Äriühingu osanikud on UniCredit Global Leasing S.p.A, kellele kuulub 95% osakapitalist, ja AS UniCredit Bank, kellele kuulub 5% osakapitalist. Äriühingu üle oli täielik kontroll seisuga 31. detsember 2010 ja 2009 äriühingul UniCredit S.P.A., mis on börsil noteeritud.

#### KOOSTAMISE ALUSED

##### Vastavuse kinnitus

Äriühingu ja kontserni raamatupidamise aastaaruanne on koostatud vastavalt Euroopa Liidus kehtivatele rahvusvahelistele finantsaruandluse standarditele (IFRS).

Juhatus kinnitas raamatupidamise aastaaruande 7. märtsil 2011. Osanikel on õigus juhtkonna koostatud ja esitatud raamatupidamise aastaaruande tagasi lükata ning nõuda uut raamatupidamise aastaaruande koostamist.

##### Hindamisalused

Äriühingu ja kontserni raamatupidamise aastaaruanne on koostatud soetusmaksumuse põhimõttel. Seisuga 31. detsember 2010 ja 31. detsember 2009 ei ole äriühingul ega kontsernil läbi kasumiaruande õiglases väärtuses kajastatavaid finantsinstrumente ega müügi valmis varasid.

##### Konsolideerimise alused

Kontserni konsolideeritud raamatupidamise aastaaruandes on tütarettevõtte need ettevõtted, mida äriühing kontrollib. Äriühingul on otsene või kaudne kontroll tütarettevõtte üle siis, kui tal on võimalik mõjutada ettevõtte finants- ja tegevuspõhimõtteid, et saada selle tegevusest kasu. Tütarettevõtete raamatupidamise aastaaruanne on lisatud konsolideeritud raamatupidamise aastaaruandesse alates kontrolli tegelikust alguskuupäevast kuni kontrolli tegeliku lõppemise kuupäevani.

Kontsernisisesed tehinguid ja kontsernisisesestest tehingutest tulenevat realiseerimata kasumit ei ole konsolideerimisel arvesse võetud. Realiseerimata kahjumit pole samuti arvesse võetud, ent see kahjum jäetakse kõrvale määral, mille puhul puuduvad tõendid väärtuse languse kohta.

##### Arvestus- ja esitusvaluuta

Raamatupidamise aastaaruanne on koostatud äriühingu ja kontserni arvestusvaluutas – Läti lantides (LVL), välja arvatud juhul, kui aruandes on märgitud teisiti.

#### OLULISED ARVESTUSPÕHIMÕTTED

##### Hinnangute ja otsuste kasutamine

ELi kehtestatud IFRSile vastava raamatupidamise aastaaruande koostamiseks peab juhtkond langetama otsuseid, andma hinnanguid ja tegema oletusi, mis mõjutavad arvestuspõhimõtete rakendamist ning kajastatud varasid ja kohustusi, tulusid ja kulusid. Hinnangud ja nendega seotud oletused tuginevad varasematele kogemustele ja muudele teguritele, mida peetakse asjaolusid arvestades mõistlikuks ja mis on aluseks varade ja kohustuste bilansilise jääkmaksumuse kajastamist puudutavatele otsustele olukordades, kus väärtust ei ole võimalik muude allikate põhjal kindlaks määrata. Tegelikud tulemused võivad neist hinnangutest erineda.

Hinnanguid ja nende aluseks olevaid oletusi vaadatakse läbi jooksvalt. Raamatupidamise kohta antud korrigeeritud hinnanguid kajastatakse perioodil, mil hinnangut korrigeeritakse, kui korrigeerimine puudutab üksnes vastavat perioodi, või korrigeerimise perioodil ja tulevastel perioodidel, kui korrigeerimine puudutab nii jooksvat perioodi kui tulevase perioodi.

Peamised hindamisepäikindluse allikad

**Kapitalirenditehingutesse, kasutusrenditehingutesse, antud laenudesse ja ostjate vastu tekkinud nõuetesse tehtud investeeringute allahindlusreserv**

Konkreetsed allahindlusreserv kohaldatakse finantsvaradele, mida on väärtuse langusega seoses eraldi hinnatud ja mis põhinevad juhtkonna parimal hinnangul eeldatavasti laekuvate rahavoogude nüüdsväärtuse kohta. Neid rahavoogusid hinnates teeb juhtkond otsuseid vastaspoole finantsseisundi ja tagatise netorealiseerimismaksumuse kohta. Iga langenud väärtusega vara hinnatakse eraldi ning kaetavaks peetavate rahavoogude väljatöötatud strateegia ja hinnangu kiidab heaks krediidiriski üksus.

Ühiselt hinnatud allahindlusreserv hõlmab krediidikahju, mis on omane sarnase krediidiriski omadustega laenude ja liisingute portfelli, kui objektiivsed tõendid viitavad sellele, et need sisaldavad allahinnatud laene, kuid eraldi allahinnatud kirjeid ei ole veel võimalik tuvastada. Kahjust tuleneva ühisallahindluse vajaduse hindamisel kaalub juhtkond selliseid tegureid nagu krediitikvaliteet, portfelli suurus, kontsentratsioon ja majandusnäitajad. Vajaliku allahindluse hindamiseks tehakse oletusi, et määrata kindlaks, kuidas asjakohased kahjud on tekkinud, ja kinnitada nõutavad sisendi parameetrid, mis põhinevad varasematel

## UNICREDIT LEASING SIA – ÄRIÜHINGU KONSOLIDEERIMATA JA KONTSERNI KONSOLIDEERITUD 2010. MAJANDUSAASTA ARUANNE

kogemustel ja praegustel majandustingimustel. Allahindluse täpsus oleneb tulevaste rahavoogude hinnangutest konkreetse vastaspoole allahindluse puhul ning näidisolemustest ja -parameetritest, mida on kasutatud ühisallahindluse kindlaksmääramisel.

### Edasilükkunud maksude ettemaksete ja tagasinõuete kajastamine

Edasilükkunud maksude ettemakseid ja tagasinõudeid kajastatakse ulatuses, mille puhul on tõenäoline maksustatava kasumi teke, millega saab mahaarvamisele kuuluvad ajutised erinevused tasaarveldada.

Uute ja/või muudetud rahvusvaheliste finantsaruandluse standardite vastuvõtmine ja rahvusvahelise finantsaruandluse tõlgenduste komitee tõlgendused

*Uued ja muudetud standardid ning tõlgendused, mis on esmakordselt kohustuslikud 1. jaanuaril 2010 alanud majandusaasta suhtes, kuid mis ei ole praegu äriühingu ega kontserni puhul asjakohased*

Tõlgendus IFRIC 9 „Varjatud tuletisinstrumentide ümberhindamine” ja standard IAS 39 „Finantsinstrumendid: kajastamine ja mõõtmine” kehtib 1. juulist 2009. Tõlgenduse IFRIC 9 muudatuse tulemusel peab üksus hindama, kas varjatud tuletisinstrument tuleb eraldada põhilepingust, kui üksus arvab hübriidse finantsvara kategoorias „õiglasest väärtuses muutustega läbi kasumiaruande kajastatav” välja. Hindamine tuleb teha asjaolude alusel, mis esinesid alljärgnevalt nimetatud sündmustest hilisema korral: kui üksus sai lepingu osapooleks või kui lepingut muudetakse ja seetõttu muutuvad märkimisväärselt lepingujärgsed rahavood. Kui üksus ei suuda seda hindamist teha, jääb hübriidleping tervikuna liigitatuks õiglasest väärtuses muutustega läbi kasumiaruande.

IAS 1 (muudetud) „Finantsaruannete esitamine”. Muudatuses selgitatakse, et kohustuse võimalik täitmine aktsiate emiteerimise teel ei ole asjakohane selle liigitamisel lühiajaliseks või pikaajaliseks kohustuseks. Lühiajalise kohustuse määratluse muutmise tulemusel lubatakse muudatuse alusel liigitada kohustus pikaajaliseks (eeldusel, et üksusel on tingimusteta õigus lükata kohustuse täitmine edasi raha või muu vara üleandmise teel vähemalt 12 kuuks pärast aruandeperioodi), sõltumata asjaolust, et vastaspool võib üksuselt igal ajal nõuda kohustuse täitmist aktsiate kujul.

### Veel vastuvõtmata uued standardid ja nende tõlgendused

*On mitmeid uusi standardeid, nende muudatusi ja tõlgendusi, mis ei ole 31. detsembril 2010 lõppenud aasta seisuga veel kehtima hakanud ja mida ei kasutatud käesoleva raamatupidamise aastaaruande koostamisel.*

Muudetud IAS 24 „Seotud osapooli käsitleva teabe avalikustamine” (kohaldatakse aruandeperioodidel, mis algavad 1. jaanuaril 2011 või pärast seda). Muudatuse alusel vabastatakse valitsusega seotud üksused avalikustamise nõuetest seotud osapoolte vaheliste tehingute ning laekumata ja tasumata saldode, sealhulgas siduvate kohustuste suhtes, mis neil on (a) valitsusega, mis omab kontrolli, ühist kontrolli või märkimisväärsel mõju aruandva üksuse üle; ja (b) seotud osapooleks oleva teise üksusega, kui sama valitsus omab kontrolli, ühist kontrolli või märkimisväärsel mõju nii aruandva üksuse kui ka teise üksuse üle. Muudetud standardi alusel tuleb avalikustada konkreetset andmed, kui aruandev üksus seda vabastust kasutab. Muudetud standardi alusel muudetakse ka seotud osapoole määratlust, mille tulemusel lisatakse määratlusesse uued seosed, näiteks kontrollitava aktsionäri sidusettevõtteid ning juhtkonna võtmeisikute kontrollitavad või ühiselt kontrollitavad üksused. Muudetud standardi IAS 24 tulemusel ei teki eelduste kohaselt uusi seoseid, mida äriühingu ja kontserni raamatupidamise aastaaruandes peaks avaldama.

Muudetud IFRIC 14 „IAS 19 – kindlaksmääratud hüvitise vara piirang, minimaalsed rahastamisnõuded ja nende koostoime” (kohaldatakse aruandeperioodidel, mis algavad 1. jaanuaril 2011 või pärast seda). Muudetud tõlgenduses IFRIC 14 käsitletakse raamatupidamisarvestust ettemaksete puhul, mis on tehtud siis, kui kehtivad ka minimaalsed rahastamisnõuded. Muudatuste alusel peab üksus kajastama teatud ettemakseid varana siis, kui üksus saab tulevikus ettemaksest rahavoogude vähenenud väljavoolu kujul tulevast majanduslikku kasu, mille puhul oleks muul juhul vaja teha makseid minimaalsete rahastamisnõuete alusel. Tõlgenduse IFRIC 14 muudatused ei ole äriühingu ega kontserni raamatupidamise aastaaruande puhul asjakohased, sest äriühingul ega kontsernil ei ole minimaalsete rahastamisnõuetega kindlaksmääratud hüvitistega plaane.

IFRIC 19 „Finantskohustiste kustutamine omakapitaliinstrumentidega” (kohaldatakse aruandeperioodidel, mis algavad 1. juulil 2010 või pärast seda). Tõlgenduses selgitatakse, et omakapitaliinstrumentid, mis on emiteeritud võlausaldajale finantskohustiste kustutamiseks tervikuna või osaliselt meetodi „võla kustutamiseks aktsiakapitali kaudu” alusel on standardi IAS 39 paragrahvi 41 kohaselt makstud tasu. Finantskohustiste kustutamiseks emiteeritud omakapitaliinstrumentide esmane mõõtmine toimub nende omakapitaliinstrumentide õiglasest väärtuses, välja arvatud juhul, kui õiglast väärtust ei saa usaldusväärselt mõõta. Sellisel juhul tuleks omakapitaliinstrumente mõõta kustutatud finantskohustiste õiglasest väärtuses. Kustutatud finantskohustise (või finantskohustise osa) bilansilise jääkmaksumuse ja omakapitaliinstrumentide esmise mõõtmise tulemuse vaheline erinevus kajastatakse kasumiaruandes. Äriühing ega kontsern ei emiteerinud käesoleva aruandeperioodi jooksul omakapitaliinstrumente, et kustutada finantskohustist. Seega ei avalda tõlgendus mõju äriühingu ega kontserni raamatupidamise aastaaruande võrreldavatele summadele 31. detsembril 2010 lõppenud aastal. Et tõlgendus on seotud vaid tulevikus sõlmistavate tehingutega, ei ole võimalik tõlgenduse kohaldamise mõjusid eelnevalt kindlaks määrata.

Muudetud IAS 32 „Finantsinstrumendid: esitamine – õiguste emissioonide liigitamine” (kohaldatakse aruandeperioodidel, mis algavad 1. veebruaril 2010 või pärast seda). Muudatuse alusel on kehtestatud nõue, et omakapitaliinstrumentideks on õigused, optsioonid või ostutähed kindlaksmääratud arvu üksuse enda omakapitaliinstrumentide omandamiseks kindlaksmääratud summa eest mis tahes valuutas, kui üksus pakub neid õigusi, optsioone või ostutähti võrdelisel alusel kõikidele enda sama liiki mittetuletisinstrumentidest omakapitaliinstrumentide olemasolevatele omanikele. Standardi IAS 32 muudatus ei ole äriühingu ega kontserni raamatupidamise aastaaruande puhul asjakohane, kuna äriühingu ega kontserni ei ole selliseid instrumente minevikus emiteerinud.

## UNICREDIT LEASING SIA – ÄRIÜHINGU KONSOLIDEERIMATA JA KONTSERNI KONSOLIDEERITUD 2010. MAJANDUSAASTA ARUANNE

### Renditehingud

#### Kapitalirent

Kapitalirent on rent, mille puhul kõik vara omandiõigusega seonduvad riskid ja hüved lähevad olulises osas üle rentnikule. Omandiõigus võib, kuid ei pruugi lõppkokkuvõttes üle minna.

Kapitalirendi tingimustel renditud vara korral kajastatakse minimaalsete netorendimaksete nüüdisväärtust nõudena. Bruto nõude ja nõude nüüdisväärtuse vahelist erinevust kajastatakse realiseerimata finantstuluna.

Täpsem teave kapitalirendi kajastamise kohta finantsinstrumendina, mis on liigitatud laenude ja nõuete alla, on esitatud finantsinstrumentide arvestuspõhimõtete osas.

#### Kasutusrent

Kasutusrent on rent, mis ei ole kapitalirent.

Kasutusrendi tingimustel renditud varasid kajastatakse materiaalse põhivara real seotusmaksumuses, millest on maha arvatud akumuliseeritud kulum ja väärtuse langusest tulenev kahjum (kui see on tekkinud). Kulumit arvestatakse lineaarselt, hinnates iga varaobjekti alla selle hinnangulise jääkväärtuseni vara eeldatava kasuliku tööea jooksul, kohaldades norme, mida kasutatakse äriühingu ja kontserni sarnase materiaalse põhivara puhul.

Minimaalsed rendimaksud koosnevad kõikide osamaksete kogusummast, mida äriühing ja kontsern rendilepingu kehtivuse jooksul eelduste kohaselt saavad, ning renditud vara jääkväärtuse garanteeritud summast.

### Finantsinstrumendid

#### Liigitamine

Läbi kasumiaruande õiglasest väärtuses kajastatavad finantsinstrumendid on sellised finantsvarad ja -kohustused, mis on enamasti soetatud või mis on tekkinud müümiseks või tagasiostmiseks lähitulevikus või mis moodustavad osa määratletud finantsinstrumentide portfelist, mida hallatakse koos ja mille kohta on tõendeid, et nendelt on hiljuti teenitud lühiajalist kasumit, või mis on tuletisinstrumendid (välja arvatud tuletisinstrumendid, mis on määratud ja kehtivad riskimaandamisinstrumentid) või mida üksus on esmasel arvelevõtmisel kajastanud läbi kasumiaruande õiglasest väärtuses. Tuletisinstrumendid on samuti liigitatud läbi kasumiaruande õiglasest väärtuses kajastatavateks finantsinstrumentideks, välja arvatud juhul, kui need on määratletud riskimaandamisinstrumentide arvestamise eesmärgidel riskimaandamisinstrumentideks.

2010. aastal äriühing ega kontsern riskimaandamisinstrumentide arvestust ei kohaldanud.

Lunastustähtajani hoitavad investeeringud on fikseeritud või kindlaksmääratava maksega ning kindla tähtajaga mittederiviivsed finantsvarad, mida äriühing või kontsern kavatseb ja suudab hoida kuni lunastustähtajani. Neid varasid ei ole läbi kasumiaruande kajastatud õiglasest väärtuses ning need ei ole müügilvalmis.

Müügilvalmis varad on finantsvarad, mis on müügilvalmis ja mida ei ole liigitatud laenudeks ega nõueteks, lunastustähtajani hoitavateks investeeringuteks ega läbi kasumiaruande õiglasest väärtuses kajastatavateks finantsinstrumentideks.

Laenu ja nõuded on fikseeritud või kindlaksmääratava maksega mittederiviivsed finantsvarad, mida ei noteerita aktiivsel turul. Käesolevas raamatupidamise aastaaruandes kuuluvad laenude ja nõuete hulka regulaarsed laenud ja krediitkaardi saldod ning neid kajastatakse amortiseeritud soetusmaksumuses, kasutades tegeliku intressimäära meetodit. Teatavaid kulusid, näiteks õigusabikulud või agendina tegutsevate töötajate vahendustasud või muud kulud, mida kantakse laenu tagamisel, käsitletakse tehingu maksumuse osana.

Amortiseeritud soetusmaksumuses kajastatud kohustused on pankade hoiused ja saldod ning klientide jooksevkontod ja hoiused.

Kõiki tavapärasel viisil sooritatud investeerimisväärtapaberite ostu- ja müügitehinguid kajastatakse arveldamiskuupäeval. See on kuupäev, mil vara antakse ettevõttele või ettevõtte poolt üle.

#### Kajastamine

Finantsvarasid ja -kohustusi kajastatakse finantsseisundi aruandes siis, kui pank või kontsern saab instrumendi kohta sõlmitud lepingu osaliseks. Kõiki tavapärasel viisil sooritatud finantsvarade ostutehinguid kajastatakse arveldamiskuupäeval.

#### Hindamine

Finantsvara või -kohustust hinnatakse esmalt õiglase väärtuse alusel. Kui finantsvara või -kohustust ei ole kasumiaruandes õiglasest väärtuses kajastatud, hinnatakse seda finantsvara või -kohustuse soetamisega või väljaandmisega otseselt seostatavate tehingukulude alusel.

Pärast esmast kajastamist hinnatakse finantsvarasid õiglase väärtuse alusel ilma selliste tehingukulude mahaarvamisetä, mis võivad tekkida vara müümise või muu realiseerimise korral, välja arvatud:

- lunastustähtajani hoitavad investeeringud ning laenud ja nõuded, mida hinnatakse amortiseeritud soetusmaksumuse alusel tegeliku intressimäära meetodil, ning
- investeeringud omakapitaliinstrumentidesse, millel ei ole aktiivsel turul noteeritud turuhinda ja mille soetusmaksumuse alusel määratud õiglast väärtust ei saa usaldusväärselt hinnata.

Kõiki finantskohustusi, välja arvatud need, mis on läbi kasumiaruande määratud õiglasest väärtuses, ning need, mis tekivad siis, kui õiglasest väärtuses kajastatud finantsvara võõrandamine ei tähenda kajastamise lõpetamist, hinnatakse amortiseeritud soetusmaksumuses. Amortiseeritud soetusmaksumust arvutatakse tegeliku intressimäära meetodil. Preemiad ja allahindlused, sealhulgas esmased tehingukulud, lisatakse seotud instrumendi bilansilisele jääkmaksumusele ning amortiseeritakse instrumendi tegeliku intressimäära alusel.

## UNICREDIT LEASING SIA – ÄRIÜHINGU KONSOLIDEERIMATA JA KONTSERNI KONSOLIDEERITUD 2010. MAJANDUSAASTA ARUANNE

### Õiglase väärtuse hindamise põhimõtted

Õiglase väärtus on summa, mille eest hindamiskuupäeval saab teadlike ja huvitatud osaliste vahelises turuväärtuse põhimõttel sõlmitava tehingus vara vahetada või kohustust täita.

Võimaluse korral hindavad äriühing ja kontsern instrumendi õiglast väärtust selle instrumendi kohta aktiivsel turul noteeritud hindade alusel. Turgu peetakse aktiivseks siis, kui noteeritud hinnad on hõlpsalt ja korrapäraselt jälgitavad ning kajastavad tegelikke ja tavapäraseid turutehinguid turuväärtuse põhimõttel.

Finantsinstrumendi õiglase väärtuse parim hindamisvahend esmasel kajastamisel on tehingu hind, s.o tehtud või saadud makse õiglase väärtus, välja arvatud juhul, kui selle instrumendi õiglast väärtust hinnatakse teiste sel ajal sama instrumendiga tehtavate jälgitavate turutehingute võrdluse alusel (s.o ilma täienduste või muudatusteta) või hindamismeetodi alusel, mille muutuvad hõlmavad üksnes jälgitavate turgude andmeid. Kui tehinguhind tagab esmasel kajastamisel õiglase väärtuse parima hindamisvahendi, siis hinnatakse finantsinstrumendi esmalt tehinguhinna alusel ning selle hinna ja hindamismeetodi alusel algselt saadud väärtuse vahelist erinevust kajastatakse hiljem kasumiaruandes sõltuvalt eraldiseisvatest tehingufaktidest ja -asjaoludest, kuid mitte hiljem kui ajal, mil hindamist tõendavad täielikult jälgitavad turuandmed või kui sõlmitakse tehing.

Varasid ja pikki positsioone hinnatakse parima ostuhinna alusel; kohustusi ja lühikesi positsioone parima müügihinna alusel. Kui äriühingul ja kontsernil on riskide maandamisega seotud positsioone, kasutatakse riskipositsioonide hindamiseks turu keskmisi hindu ning parimat ostu- või müügihinna korrigeeritakse vajadusel üksnes avatud netopositsioonini. Õiglased väärtused kajastavad instrumendi krediidiriski ning hõlmavad krediidiriskide arvestamiseks tehtud korrigeerimisi. Mudelite alusel saadud õiglase väärtuse hinnanguid korrigeeritakse muude tegurite (näiteks likviidsusriski või mudeli määramatuse) alusel sellises ulatuses, mida kolmandast isikust turuosaline võtaks äriühingu või kontserni eelduste kohaselt tehingu hinna määramisel arvesse.

### Hilisemast hindamisest tulenev kasum ja kahjum

Finantsvara või -kohustuse õiglase väärtuse muutumisest tulenevat kasumit või kahjumit kajastatakse järgmiselt:

- õiglase väärtuse alusel liigitatud finantsinstrumendi kasumit või kahjumit kajastatakse kasumiaruandes;
- müügiavalms finantsvara kasumit või kahjumit kajastatakse otseselt muu koondkasumi real (välja arvatud allahindlusreservid) kuni vara kajastamine lõpetatakse ning siis esitatakse eelnevalt muu koondkasumi real kajastatud kogukasum või -kahjum kasumiaruandes. Müügiavalms finantsvaraga seotud intressi kajastatakse kasumiaruandes tuluna ning arvutatakse tegeliku intressimäära meetodil.

Amortiseeritud soetusmaksumuses kajastatud finantsvarade ja -kohustuste puhul kajastatakse kasumit või kahjumit kasumiaruandes siis, kui finantsvara või -kohustuse kajastamine lõpetatakse või nende väärtus langeb, ning seda tehakse amortiseerimise teel.

### Kajastamise lõpetamine

Finantsvara kajastamine lõpetatakse, kui finantsvarast saadavate rahavoogude lepingulised õigused lõpevad või kui äriühing ja kontsern annavad kõik finantsvara omandiõigusega seonduvad riskid ja hüved olulises osas üle. Üleandmisel tekkinud või säilinud õigusi ja kohustusi kajastatakse eraldi varade või kohustuste real. Finantskohustuse kajastamine lõpeb kohustuse lõppemisel.

Äriühing ja kontsern lõpetavad samuti asjakohaste varade kajastamise, kui kantakse maha nõuded, mis on seotud ebatõenäoliselt laekuvaks peetava varaga.

### Tasaarvestus

Finantsvara ja -kohustused tasaarvestatakse ning netosummat kajastatakse finantsseisundi aruandes siis, kui on olemas seaduslikult jõustatud õigus kajastatud summasid tasaarvestada ning on tekkinud kavatsus netosummades arveldada või vara realiseerida ning samal ajal kohustust täita.

### Tulude ja kulude kajastamine

Puhastulu on kapitalirenditehingutest saadav intressitulu, kasutusrenditehingutest saadav renditulu ja aruandeaastal kajastatud tulu ilma haldustasudeta ja sissemakseteta.

Kapitalirenditehingutest saadav intressitulu jaotatakse kogu rendiperioodi peale ära ning seda kajastatakse kasumiaruandes tegeliku intressimäära meetodil. Tegelik intressimäär on määr, millega diskonteeritakse täpselt finantsvara või -kohustuse oodatava kasutusea jooksul toimuvaid prognoositud tulevasi sularaha makseid ja laekumisi. Tegeliku intressimäära arvutamisel võtavad äriühing ja kontsern tulevaste rahavoogude hindamisel arvesse finantsinstrumendi kõiki lepingutingimusi, kuid mitte tulevast krediidikahju.

Tegeliku intressimäära mõõtmise on kaasatud teenustasutulu ja -kulu, mis moodustab finantsvarade ja -kohustuste tegeliku intressimäära lahutamatu osa.

Teenustasutulu kajastatakse siis, kui seonduvat teenust osutatakse. Kui laenukohustust eelduste kohaselt ositi ei kasutata, kajastatakse vastava laenukohustuse tasu lineaarselt laenukohustuse perioodi jooksul.

Kasutusrenditehingutest saadavat renditulu ja kasutusrendi ettemakseid kajastatakse rendiperioodi jooksul lineaarselt.

Kogu intressitulu ja -kulu kajastatakse tekkepõhiselt.

Muid tulu- ja kulukirjeid kajastatakse siis, kui vastav teenus on osutatud.

## UNICREDIT LEASING SIA – ÄRIÜHINGU KONSOLIDEERIMATA JA KONTSERNI KONSOLIDEERITUD 2010. MAJANDUSAASTA ARUANNE

### Välisvaluuta

Välisvaluutatchingud arvestatakse ümber äriühingu ja tema tütarettevõtte arvestusvaluutasse vastavalt tehingu toimumise kuupäeval kehtivale Läti Panga vahetuskursile. Välisvaluutas fikseeritud rahalised varad ja kohustused arvestatakse aruande kuupäeval ümber arvestusvaluutasse sel kuupäeval kehtiva vahetuskursi alusel. Rahaliste varade ja kohustuste puhul on valuutakursi muutustest tingitud kasum või kahjum perioodi alguses kehtiva arvestusvaluuta amortiseeritud soetusmaksumuse, mida perioodi jooksul korrigeeritakse tegeliku intressimäära ja -maksetega, ning perioodi lõpus kehtiva vahetuskursi alusel ümber arvestatud valuuta amortiseeritud soetusmaksumuse vaheline erinevus. Välisvaluutas fikseeritud mitterahalised varad ja kohustused, mida kajastatakse õiglases väärtuses, arvestatakse arvestusvaluutasse ümber õiglase väärtuse kindlaksmääramise kuupäeval kehtiva vahetuskursi alusel.

Kasum või kahjum välisvaluutas fikseeritud varade ja kohustuste vahetuskursi muutustest on kajastatud selle perioodi koondkasumiaruandes, mil muutused aset leidsid. Põhivaluutade vahetuskursid olid aruandeperioodi lõpus järgmised:

|       | 31. detsember 2010 | 31. detsember 2009 |
|-------|--------------------|--------------------|
|       | LVL                | LVL                |
| 1 USD | 0,535000           | 0,489000           |
| 1 EUR | 0,702804           | 0,702804           |
| 1 EEK | 0,044900           | 0,044900           |
| 1 LTL | 0,203000           | 0,204000           |
| 1 SEK | 0,078200           | 0,067800           |

### Eraldised

Eraldisi kajastatakse siis, kui äriühingul või kontsernil on minevikus aset leidnud sündmustest tulenev õiguslik või faktiline kohustus, mida saab usaldusväärselt hinnata, ning on tõenäoline, et kohustuse täitmiseks on vaja majanduskasu väljavoolu. Kui mõju on materiaalne, määratakse eraldised prognoositavate rahavoogude diskonteerimise teel maksueelse määra alusel, mis peegeldab turu hetkehinnangut raha ajaväärtuse suhtes ja kohustusega seotud spetsiifilisi riske. Seisuga 31. detsember 2010 ja 31. detsember 2009 on äriühing ja kontsern loonud eraldised kasutamata puhkusteks, preemiateks ja tarkvara rakendamiseks.

### Töötajate lühiajalised hüvitised

Töötajate lühiajaliste hüvitiste tasumise kohustust hinnatakse diskonteerimata kujul ja need kantakse kuludesse vastava teenuse osutamisel. Kasumijaotusplaanide alusel lühiajaliste rahaliste preemiatena eeldatavasti makstavate summade puhul kajastatakse kohustust, kui äriühingul või kontsernil on juriidiline või faktiline kohustus tasuda see summa töötaja poolt varem osutatud teenuse eest ja seda kohustust on võimalik usaldusväärselt hinnata.

### Immateriaalne põhivara

Äriühingu või kontserni soetatud immateriaalset põhivara kajastatakse soetusmaksumuses, millest on maha arvatud akumuliseeritud kulum ja väärtuse langusest tulenev kahjum. Omandatud arvutitarkvara litsentsid kapitaliseeritakse kulude alusel, mis on tekkinud konkreetse tarkvara soetamisel ja kasutuskõlblikuks muutmisel. Amortisatsiooni arvestatakse lineaarselt vara kasuliku tööea jooksul, kasutades järgmisi juhtkonna kehtestatud määrasid.

|            | Protsent aastas |
|------------|-----------------|
| Litsentsid | 20–33           |
| Tarkvara   | 20–35           |

### Materiaalne põhivara

Materiaalset põhivara kajastatakse soetusmaksumuses, milles on maha arvatud akumuliseeritud kulum ja väärtuse langusest tulenev kahjum. Kulumit arvestatakse lineaarselt, hinnates iga varaobjekti alla selle hinnangulise jääkväärtuseni vara eeldatava kasuliku tööea jooksul, kasutades järgmisi juhtkonna kehtestatud määrasid.

|                | Protsent aastas |
|----------------|-----------------|
| Kontoriseadmed | 20–35           |
| Arvutid        | 35              |
| Sõidukid       | 20              |
| Muu            | 20              |

Remondi- ja hoolduskuludid kajastatakse nende tekkimisel kasumiaruandes. Kapitaalremondi kulud lisatakse vara bilansilisse jääkmaksumusse ning amortiseeritakse seotud vara järelejäänud kasuliku tööea jooksul.

Renditud varale tehtud parendused amortiseeritakse lineaarselt renditud varale tehtud parenduste eeldatava kasuliku tööea või rendiperioodi jooksul, olenevalt sellest, kumb on lühem.

Realiseerimisest saadud kasum ja kahjum määratakse kindlaks bilansiliste jääkmaksumuste ja tulude võrdluse alusel ning seda kajastatakse kasumiaruandes nende tekkimise/teenimise perioodil.

Kasulikud tööead, amortisatsioonimäärad ja -meetodid vaadatakse igal aruande kuupäeval üle.

## UNICREDIT LEASING SIA – ÄRIÜHINGU KONSOLIDEERIMATA JA KONTSERNI KONSOLIDEERITUD 2010. MAJANDUSAASTA ARUANNE

### Investeeringud tütarettevõtetesse

Tütarettevõtted on äriühingu või kontserni kontrollitavad üksused. Äriühingul või kontsernil on kontroll tütarettevõtte üle siis, kui tal on võimalik mõjutada üksuse finants- ja tegevuspõhimõtteid, et saada üksuse tegevusest kasu. Kontrolli hindamisel võetakse arvesse võimalikke hääleõigusi, mida saab antud hetkel kasutada. Tütarettevõtete raamatupidamise aastaaruanne on lisatud konsolideeritud raamatupidamise aastaaruandesse alates kontrolli alguskuupäevast kuni kontrolli lõppemise kuupäevani. Raamatupidamise aastaaruanne on koostatud sarnaste tehingute ja sarnastel asjaoludel toimunud muude sündmuste ühtsete arvestuspõhimõtete alusel.

Äriühing on investeerinud soetusmaksumuses 10 600 Lāti latti oma tütarettevõttesse UniCredit Broker SIA.

### Dividendid

Ettepanekukohaseid dividende kajastatakse raamatupidamise aastaaruandes vaid siis, kui osanikud on need heaks kiitnud.

### Taasomandatud varad

Oma tavapärase äritegevuse raames omandab äriühing aeg-ajalt varasid, mis olid esialgu liisitud välja kapitalirendi tingimustel. Kui äriühing omandab varasid sellisel moel (st omandab varade täieliku omandiõiguse), siis ei kajastata vara eraldi, ent võlgnevus tasaarvestatakse või seda vähendatakse vara väärtuse võrra. Jääkväärtus langeb täies ulatuses ning võlgnevus eksisteerib õiguslikult edasi.

### Osapõhised maksetehingud

Töötajatele jaotatud optsoonide üleandmise kuupäeva õiglast väärtust kajastatakse tööjõukulude all koos vastava muu koondkasumi suurenemisega perioodi jooksul, mil töötajatel tekib tingimusteta õigus optsoonidele. Kuludena kajastatud summat korrigeeritakse selliselt, et saaks kirjendada osaoptsioonide arvu, mille puhul seotud teenuse ja turuvälisel tegevustulemusel põhinevad omandi üleandmise tingimused peaksid olema täidetud, nii et lõppkokkuvõttes kuluna kajastatud summa põhineb osaoptsioonide arvul, mis ei vasta omandi üleandmise kuupäeval seotud teenuse ja turuvälisel tegevustulemusel põhinevatele omandi üleandmise tingimustele.

Töötajatele tasutava summa õiglane väärtus osa hinna tõusust tulenevate õiguste suhtes, mida arveldatakse rahas, kajastatakse kuluna kohustuste vastava suurenemisena perioodil, mil töötajatel tekib tingimusteta õigus maksele. Kohustust hinnatakse uuesti igal aruande kuupäeval ja arveldamiskuupäeval. Kohustuse õiglase väärtuse muutusi kajastatakse kasumiaruandes tööjõukuluna.

Osoptsioonide õiglast väärtust hinnatakse tulevaste intressimäärade mudeli *Hull and White model* abil. Selle mudeli aluseks on hindade jaotamine kolmeharulise puu põhimõttel Boyle'i algoritmi abil ning sellisel juhul hinnatakse varasemat täitmistõenäosust deterministliku mudeli põhjal seoses järgmisega:

- turuosa väärtuse saavutamine võrdub täitmishinna täiskordsega;
- tõenäoliselt väljuvad kasusaajad kiiresti pärast omandi üleandmise perioodi.

Eeldatava tõusva väärtusega osad on üht liiki osade eelismüügi plaan, millega kaasnevad omakapitaliga arveldatavad osapõhised maksed. Õiglane väärtus võrdub osa turuhinnaga, millest on maha arvatud üleandmise kuupäevast kuni osa arvelduskuupäevani kestval perioodil jaotamata jäänud dividendide nüüdsväärtus.

### Maksekohustuste ostutehingute ehk *forfeiting*-tehingute kajastamine

Kapitalirendi- ja kasutusrenditehingutest tulenevad valitud rendinõuded ostab maksekohustustena UniCredit Bank AS – õigused rendinõuetele valitud lepingute alusel müüakse UniCredit Bank ASile ja UniCredit Bank AS Eesti filiaalile. Pärast maksekohustuste ostu haldab neid rendilepinguid äriühing. Maksekohustuste ostutehingute tulused, välja arvatud maksekohustuste ostu objektiks oleva asjakohase materiaalse põhivara jääkväärtus, kajastatakse finantsseisundi aruandes maksekohustuste ostutehingute võlgadena. Maksekohustuste ostutehingute edasilükkunud tulu kajastatakse kasumiaruandes lineaarselt järelejäänud rendiperioodi jooksul pärast maksekohustuste ostutehingu täitmist. Seisuga 31. detsember 2010 oli maksukohustuste ostutehingute võlasummaks 384 281 Lāti latti (2009: 206 114 Lāti latti).

### Allahindlus

#### Finantsvara

Äriühing ja kontsern hindavad igal aruande kuupäeval, kas on objektiivseid tõendeid selle kohta, et finantsvarade, mida ei ole kasumiaruandes kajastatud õiglases väärtuses, väärtus on langenud. Finantsvarade väärtus on langenud, kui objektiivsete tõendite alusel on näha, et kahjum on tekkinud pärast vara esmast kajastamist ning et kahjumi tekkimine mõjutab vara tulevase rahavooge, mida saab usaldusväärselt mõõta.

Objektiivsed tõendid finantsvarade väärtuse langemise kohta võivad olla laenusaaaja kohustuste täitmata jätmine või maksevõimetus, laenu või nõude restruktureerimine äriühingu või kontserni poolt tingimustel, mida äriühing või kontsern muidu ei kaaluks, märgid laenusaaaja või emitendi pankroti kohta, väärtipaberi aktiivse turu kadumine või muud varade grupiga seotud jälgitavad andmed, näiteks gruppi kuuluvate laenusaaajate või emitentide makseseisundi kahjulikud muutused või majandustingimused, mis seostuvad grupi kohustuste täitmata jätmisega. Lisaks on objektiivne tõend väärtuse languse kohta kapitaliväärtipaberi investeeringu korral märkimisväärne või pikaajaline õiglase väärtuse langus allapoole selle soetusmaksumust.

Äriühing ja kontsern analüüsivad tõendeid renditehingute väärtuse languse kohta nii konkreetse varaobjekti tasandil kui ka varagrupi tasandil. Kõiki olulisi renditehinguid hinnatakse eraldi neile omase väärtuse languse alusel. Kõiki olulisi renditehinguid, mille väärtus ei ole üksikult langenud, hinnatakse seejärel koos, et avastada juba toimunud, kuid veel avaldumata väärtuse langus. Renditehinguid, mis ei ole üksikult olulised, hinnatakse väärtuse languse tuvastamiseks koos, rühmitades kokku sarnaste riskiomadustega renditehingud.

## UNICREDIT LEASING SIA – ÄRIÜHINGU KONSOLIDEERIMATA JA KONTSERNI KONSOLIDEERITUD 2010. MAJANDUSAASTA ARUANNE

Ühisel vara väärtuse languse hindamisel kasutavad äriühing ja kontsern statistilist mudelit kohustuste täitmatajätmise tõenäosuse varasemate suundumuste, tagastuste ajastuse ja tekitatud kahju kohta, mida on korrigeeritud lähtuvalt juhtkonna otsustest selle kohta, kas olemasolevad majandus- ja laenuitingimused on sellised, et tegelik kahjum võib kujuneda ajalooliste mudelite põhjal prognoositust suuremaks või väiksemaks. Ebaõnnestumise tõenäosust, võimaliku kahju suurust ja tulevaste tagastuste prognoositud ajastust võrreldakse korrapäraselt tegelike tulemustega, et veenduda nende kohasuses.

Amortiseeritud soetusmaksumuses kajastatud vara väärtuse langusest tulenevat kahjumit hinnatakse finantsvara bilansilise jääkmaksumuse ning vara algse tegeliku intressimäära meetodil diskonteeritud prognoositavate tulevaste rahavoogude nüüdisväärtuse vahelise erinevuse alusel. Kahjumit kajastatakse kasumiaruandes, laenude ja nõuete allahindlusreservi real. Langenud väärtusega vara intressi kajastatakse jätkuvalt diskonto amortiseerimise kaudu. Kui hilisem sündmus põhjustab väärtuse langusest tuleneva kahjumi vähenemise, siis kasumiaruandes väärtuse langusest tuleneva kahjumi vähenemine storneeritakse.

### Mitterahalised varad

Äriühingu ja kontserni mitterahaliste varade bilansilist jääkmaksumust, välja arvatud edasilükkunud maksude ettemakseid ja tagasinõudeid, analüüsitakse igal aruande kuupäeval, et teha kindlaks, kas esineb märke vara väärtuse langusest. Selliste märkide olemasolu korral hinnatakse tagatisvara kaetavat väärtust. Firmaväärtuse kaetavat väärtust hinnatakse igal aruande kuupäeval.

Väärtuse langusest tulenevat kahjumit kajastatakse siis, kui vara bilansiline jääkmaksumus või selle rahavoogusid genereeriv üksus ületab selle kaetava väärtuse. Rahavoogusid genereeriv üksus on väikseim eristatav varagrupp, mis genereerib rahavoogusid, mis on muudest varadest ja varagruppidest suuresti sõltumatud. Väärtuse langusest tulenevat kahjumit kajastatakse kasumiaruandes. Rahavoogusid genereerivate üksuste väärtuse langusest tulenevat kahjumit kasutatakse kõigepealt üksustele määratud firmaväärtuse bilansilise jääkmaksumuse vähendamiseks ning seejärel üksuse (üksuste grupi) muude varade bilansilise jääkmaksumuse proportsionaalseks vähendamiseks.

Vara või rahavoogusid genereeriva üksuse kaetav väärtus on vara või rahavoogusid genereeriva üksuse kasutusväärtus või õiglane väärtus (olenevalt sellest, kumb on suurem), millest on maha arvatud müügikulud. Kasutusväärtuse hindamisel diskonteeritakse prognoositud rahavood nüüdisväärtuseni, kasutades maksueelset diskonteerimismäära, mis peegeldab turu hetkehinnangut raha ajaväärtuse suhtes ja varaga seotud spetsiifilisi riske.

Firmaväärtuse langusest tulenevat kahjumit ei storneerita. Muude varade osas hinnatakse eelnevatel perioodidel kajastatud väärtuse langusest tulenevat kahjumit igal aruande kuupäeval, et leida märke sellest, kas kahjum on vähenenud või üldse kadunud. Väärtuse langusest tulenevat kahjumit storneeritakse, kui kaetava väärtuse määramiseks kasutatavates hinnangutes on toimunud muutusi. Väärtuse langusest tulenevat kahjumit storneeritakse üksnes vara bilansilise jääkmaksumuse ulatuses, mis ei ületa bilansilist jääkmaksumust, millest on maha arvatud kulum ja amortisatsioon ning mis oleks määratud, kui väärtuse langusest tulenevat kahjumit ei oleks kajastatud.

### Kaetava väärtuse arvutamine

Äriühingu ja kontserni laenude, kapitalirendinõuete ja muude nõuete kaetav väärtus arvutatakse prognoositud rahavoogude nüüdisväärtuses, mida on diskonteeritud vara algse tegeliku intressimääraga.

### Maksud

Tulumaksukulu koosneb jooksvatest ja edasilükkunud maksudest. Tulumaksukulu kajastatakse kasumiaruandes, välja arvatud nende kirjade ulatuses, mida kajastatakse otseselt omakapitali või muu koondkasumi all.

Jooksvad maksud on maksustatava tulu pealt aasta jooksul tasumisele kuuluvad prognoositavad maksud, mida arvestatakse maksumäärade alusel, mis kehtivad või on sisuliselt jõustunud aruande kuupäeva seisuga, samuti eelnevate aastate eest tasumisele kuuluvate maksude korrigeeritud summad.

15% ettevõtte tulumaksu arvestatakse vastavalt Läti Vabariigi maksuseadustele ja see tugineb maksustamisperioodi maksustatavale kasumile. Eesti filiaali majandustulemused on lisatud ettevõtte tulumaksu arvutusse kooskõlas Läti ettevõtte tulumaksu puudutavate õigusaktidega.

Edasilükkunud maksude arvutamisel lähtutakse finantsaruandluse eesmärgil ajutistest erinevustest varade ja kohustuste bilansilise jääkmaksumuse ja maksustamiseks kasutatavate summade vahel. Edasilükkunud makse ei kajastata järgmiste ajutiste erinevuste korral: firmaväärtuse esmasel kajastamisel ning varade ja kohustuste esmasel kajastamisel tehingus, mis ei ole seotud äriühendusega ning mis ei mõjuta ei raamatupidamist ega maksustatavat kasumit ega kahjumit; seda ei kajastata ka tütarettevõtetesse tehtavate investeeringutega seotud erinevuste ulatuses, mida tõenäoliselt lähitulevikus ei storneerita. Edasilükkunud makse hinnatakse selliste maksumäärade alusel, mida celdatavalt ajutistele erinevustele storneerimise korral kohaldatakse, ning seda tehakse õigusaktide alusel, mis kehtivad või on aruande kuupäeva seisuga sisuliselt jõustunud.

Edasilükkunud maksude ettemakseid ja tagasinõudeid kajastatakse vaid ulatuses, mille puhul on tõenäoline tulevase maksustava kasumi teke, millega saab vara tasaarveldada. Edasilükkunud maksude ettemaksed ja tagasinõuded vaadatakse üle igal aruande kuupäeval ning neid vähendatakse seotud maksusoodustuste ulatuses, mille realiseerimine ei ole enam tõenäoline.

### Raha ja raha ekvivalendid

Raha ja raha ekvivalendid koosnevad kassas olevast rahast, pankades hoitavatest sidumata saldodest ning ülikviidsetest finantsvaradest, mille algne tähtaeg on lühem kui kolm kuud, mille õiglase väärtuse muutuste oht ei ole märkimisväärne ning mida äriühing ja kontsern kasutavad lühiajaliste kohustuste haldamiseks.

# **UNICREDIT LEASING SIA – ÄRIÜHINGU KONSOLIDEERIMATA JA KONTSERNI KONSOLIDEERITUD 2010. MAJANDUSAASTA ARUANNE**

## **Seotud osapooled**

Seotud osapooled on nii juriidilised isikud kui ka eraisikud, kes on seotud äriühinguga kooskõlas järgmiste eeskirjadega.

Osapoolt loetakse äriühinguga seotuks, kui:

- osapool ja äriühing on ühe kontserni ühise kontrolli all (seotud äriühingud). Kontsern on äriühingute grupp, kuhu kuulub kontserni emaettevõtte ja tema tütarettevõtted. Äriühing on kontserni emaettevõtte. Seotud äriühingute hulka kuuluvad äriühingu tütarettevõtted ja omakorda nende tütarettevõtted;
- osapool on eraisik, kellel on otsene või kaudne kontroll äriühingu üle;
- osapool esindab äriühingus investeringut, mis võimaldab tal kasutada olulist mõju äriühingu üle ning mida teostatakse vähemalt 20 aga mitte rohkem kui 50 protsendi hääleõiguste kaudu äriühingus (äriühing on osapoole sidusettevõtte);
- osapool on ühine kontroll äriühingu üle (äriühing on osapoole ühisettevõtte);
- osapool on äriühinguga seotud;
- osapool on ühisettevõtte, milles äriühing on ühisettevõtte liige;
- osapool on äriühingu või tema emaettevõtte tippjuhtkonna liige;
- osapool on mõne punktis b, c, d või g nimetatud eraisiku lähedane sugulane;
- osapool on äriühing, mida kontrollivad eraldi või ühiselt punktides b, c, d, g ja h nimetatud eraisikud, või osapool on nende olulise mõju all olev äriühing või äriühing, mis omab otse või kaudselt olulisi hääleõigusi punktides b, c, d, g ja h osutatud eraisiku vahendusel;
- osapool on äriühingu või sellise muu äriühingu, mis on äriühingu seotud osapool, töötajate töösuhtejärgse hüvitiskava pakkuja.

Seotud osapooled on äriühingu osanikud, kontserni UniCredit Group liikmed, juhatuse liikmed, nende lähisugulased ja äriühingud, mille üle eeltoodud isikutel on oluline mõju või kontroll. Äriühingu ja kontserni emaettevõtte on UniCredit Global Leasing S.p.A.

## **Risk ja riskijuhtimine**

Äriühingu ja kontserni tegevus on avatud mitmetele finantsriskidele, sealhulgas krediidiriskile, likviidsusriskile, valuutariskile ja intressimäära riskile. Äriühingu ja kontserni juhtkond püüab minimeerida finantsriski võimalikke kahjulikke mõjusid äriühingu ja kontserni finantstulemustele. Äriühingu ja kontserni riskide juhtimine hõlmab riskide tuvastamiseks, hindamiseks, vältimiseks ning tõhusaks juhtimiseks kehtestatud põhimõtteid ja muid õigusnorme.

### *Valuutarisk*

Valuutarisk on risk, mis tekib äriühingu ja kontserni varade ja kohustuste valuutastruktuuri erinevuste tõttu. Valuutakursside muutused põhjustavad muutusi varade ja kohustuste väärtuses ning kohalikus vääringus arvatud tulude ja kulude summas.

Äriühing ja kontsern on avatud valuutakursside kõikumisest tulenevatele mõjudele nii oma finantsseisundi kui ka rahavoogude seisukohast. Äriühing ja kontsern soovivad viia välisvaluutas fikseeritud varad, kohustused ja bilansivälised instrumendid omavahel vastavusse, et vältida olulisi valuutariske. Lati latti on praegu seotud euroga. Kui valitsuse poliitikat muudetakse seoses sidumisega, siis valuutarisk suureneks.

Lati 20% tugevnemine althooldud valuutade suhtes seisuga 31. detsember oleks suurendanud (vähendanud) puhaskasumit althooldud summades. Käesoleva analüüsi puhul on eeldatud, et kõik muud muutujad, sh eelkõige intressimäärad, ei muutu. Analüüs on koostatud 2010. ja 2009. aasta analüüsiga samadel alustel.

|                                     | Puhaskasum / muu<br>koondkasum (LVL) |
|-------------------------------------|--------------------------------------|
| <b>Äriühing, 31. detsember 2010</b> |                                      |
| USD                                 | (65 444)                             |
| EUR                                 | 485 542                              |
| EEK                                 | (11 550)                             |
| <b>Kontsern, 31. detsember 2010</b> |                                      |
| USD                                 | (65 444)                             |
| EUR                                 | 483 375                              |
| EEK                                 | (10 968)                             |
| <b>Äriühing, 31. detsember 2009</b> |                                      |
| USD                                 | (151 041)                            |
| EUR                                 | 1 761 417                            |
| EEK                                 | (126 724)                            |
| <b>Kontsern, 31. detsember 2009</b> |                                      |
| USD                                 | (151 041)                            |
| EUR                                 | 1 758 154                            |
| EEK                                 | (127 276)                            |

Lati 20% nõrgenemine ülaltoodud valuutade suhtes seisuga 31. detsember oleks avaldanud samasugust, ent vastupidist mõju ülaltoodud summadele, kui kõik muud muutujad oleksid jäänud samaks.

Äriühingu ja kontserni finantsvarade ja finantskohustuste valuutaanalüüs on esitatud lisas 30.

### *Intressimäära risk*

Intressimäära risk on seotud intressimäärade äkiliste ebasoodsate muutustega, mis võivad mõjutada äriühingu ja kontserni teenitud tulu. Risk tekib äriühingu ja kontserni varade ja kohustuste tähtaegade erinevuste tõttu või nende intressimäärade korrapärase korrigeerimise tõttu. Intressimäära riski juhtimine hõlmab äriühingu ja kontserni kõikide varade ja kohustuste intressimäära riski analüüsimist ja juhtimist.

## UNICREDIT LEASING SIA – ÄRIÜHINGU KONSOLIDEERIMATA JA KONTSERNI KONSOLIDEERITUD 2010. MAJANDUSAASTA ARUANNE

Alljärgnev näitab äriühingu ja kontserni kasumiaruande tundlikkust põhjendatult võimalike intressimäära muutuste suhtes. Käesoleva analüüsi puhul on eeldatud, et kõik muud muutujad, sh eelkõige valuutakursid, jäävad samaks.

Kasumiaruande tundlikkus tuleneb intressimäärade oletatavate muudatuste mõjust puhtale intressitulule ühe aasta kohta pärast bilansikuupäeva, põhinedes ujuva intressimääraga mittekaueldavatel finantsvaradel ja -kohustustel, mida omatakse 31. detsembril 2010 ja 31. detsembril 2009.

Äriühingule ja kontsernile ei kuulunud seisuga 31. detsember 2010 ja 31. detsember 2009 finantsinstrumente, mille puhul oleks tulenevalt intressimäärade muutustest tekkinud mõju muule koondkasumile.

Intressimäärade tõus ja langus 100 baaspunkti võrra tooks kaasa järgmise muudatuse kasumiaruandes, seejuures mõju muule koondkasumile oleks sama.

| Äriühing                                     | Puhaskasum<br>2010<br>LVL | Muu<br>koondkasum<br>2010<br>LVL | Puhaskasum<br>2009<br>LVL | Muu<br>koondkasum<br>2009<br>LVL |

|----------------------------------------------|---------------------------|----------------------------------|---------------------------|----------------------------------|
| Paralleelne suurenemine 100 baaspunkti võrra | (42 567)                  | (42 567)                         | (126 083)                 | (126 083)                        |
| Paralleelne vähenemine 100 baaspunkti võrra  | 42 567                    | 42 567                           | 126 083                   | 126 083                          |

Lisas 29 on esitatud ümberhindluse tähtaegade analüüs, milles on näidatud intressimäära lepingujärgseid ümberhindluse kuupäevi või finantsvarade ja -kohustuste lepingulisi tähtaegu (olenevalt sellest, kumb saabub varem).

### Krediidirisk

Äriühing ja kontsern on avatud krediidiriskile, mis tekib siis, kui vastaspool ei ole suuteline maksuma summasid õigeaegselt. Äriühing ja kontsern struktureerivad võetud krediidiriski tasemed, kehtestades ühe laenusaaaja või seotud laenusaaajate rühma puhul ning tööstusvaldkondade puhul vastuvõetava riski limiidid. Selliseid riske jälgitakse korrapäraselt ning need vaadatakse üle igas kuus, igas kvartalis ja igal aastal. Äriühingul ja kontsernil on kehtestatud ranged piirid eri tasemega volituste kohta, mida väljastatakse liisingulepingu ning sõlmitud liisingulepingute muutuste kinnitamiseks.

Krediidiriske jälgitakse korrapäraselt, hinnates laenusaaaja suutlikkust tasuda intressimakseid ja põhiosa makseid ning muutes kehtestatud limiite vastavalt vajadusele.

Nõuetekohaste riskimaandusvõtete rakendamiseks on äriühing ja kontsern töötanud välja krediidi põhimõtete ja -suuniste kogumiku krediidiriskide juhtimiseks ning äriühingu ja kontserni krediidi põhimõtted sätestavad alljärgneva:

- laenu-/krediiditaotluste ülevaatamise ja kinnitamise kord;
- laenusaaajate krediidi hinnangu meetodid;
- vastaspoolte, hindamis- ja kindlustusseltside hinnangu meetodid;
- tagatise hindamise meetodid;
- krediidi dokumentide nõuded;
- laenude ja muude krediidiriskide pideva jälgimise kord.

Kõnealused põhimõtted sisaldavad sätteid selle kohta, et liisinguvõtja analüüsimisel tuleb tähelepanu pöörata niisugustele olulistele teguritele nagu välisreitingud (kui on olemas), pangasoovitused ja muud sarnased andmed. Et läbida krediidi protsess edukalt, peab iga konkreetne tehing vastama krediidi põhimõtetes ja muudes metodoloogilistes dokumentides kehtestatud võrdlusandmetele.

### Likviidsusrisk

Likviidsusrisk tekib äriühingu ja kontserni tegevuse üldisel rahastamisel ja positsioonide juhtimisel. Siia kuulub risk, mis seisneb äriühingu või kontserni suutmatuses rahastada varasid õigetele tähtaegadel ja kehtivate määrade alusel, ning risk, mis seisneb äriühingu või kontserni suutmatuses likvideerida vara mõistliku hinna eest ja õigel ajal.

Äriühing ja kontsern püüavad juhtida likviidsusrisi nii, et piisavad krediidiressursid oleksid kohustuste õigeaegseks täitmiseks olemas. Seepärast leiab äriühingu ja kontserni juhtkond, et äriühingul ja kontsernil on piisavalt raharessursse ning selle likviidsus ei ole ohus.

Finantskohustused tähtaegade järgi on esitatud lisas 31.

2010. MAJANDUSAASTA ARUANNE**

---

*Kapitali juhtimine*

Lätis ei kohaldada liisingufirmade suhtes kapitaliga seotud õigusnorme; siiski kontrollib äriühingu ja kontserni juhtkond ettevõttesiseselt kapitali adekvaatsust ja kapitali kasutamist.

Äriühingu ja kontserni põhimõtte on toetada äriühingu ja kontserni suutlikkust tegutseda käigusoleva ettevõtte, et liisinguturu tingimuste paranedes osanikele tulu teenida ning säilitada tugev kapitalibaas, et soodustada tegevuse arengut.

Ühisallahindlus seisuga 31. detsember 2010 ja 31. detsember 2009 määratakse kapitalirendi investeeringute pikaajalisele osale, kuigi see viitab nii lühi- kui ka pikaajalisele osale.

Äriühing kasutab liitintressimäära, mis hõlmab nii fikseeritud kui ka muutuvat intressimäära (RIGIBOR, EURIBOR ja LIBOR). Sellest tulenevalt võetakse netoliisingust saadava realiseerimata intressitulu ja ostuvõimaluse kasutaja nõuete kindlaksmääramist arvesse perioodil, mil lõpeb kehtiv muutuv intressimäär.

Kõik laenud on antud Lätis.

Äriühingu ja kontserni loodud eri- ja ühisallahindlus on määratud investeringutele, mis on tehtud kapitalirenditehingutesse, laenudesse ja nõuetesse ostjate vastu. Siiski on raamatupidamise aastaaruandes kogu portfelli eri- ja ühisallahindlus määratud investeringutele kapitalirenditehingutesse. Juhtkond leiab, et eri- ja ühisallahindlust ei ole mõistlik jagada investeringute vahel, mis on tehtud kapitalirendiportfelli, laenudesse ja nõuetesse ostjate vastu.

Kapitalirenditehingute investeeringute pikaajaline ja lühiajaline osa kajastab arvetena veel esitamata ja tasumisele mittekuuluvat osa kapitalirendiportfelli koguriskist.

Nõuded ostjate vastu on kapitalirendiportfelli koguriski osa, mille eest on arved esitatud, ning hõlmab kasutus- ja kapitalirendilepingute tasumata makseid ning kapitali- ja kasutusrendilepingute makseid, mille maksetähtajad saavad aruandeperioodile järgneval perioodil.

Raamatupidamise aastaaruandes määratakse kogu portfelli eri- ja ühisallahindlus kapitalirenditehingute investeeringutele. Juhtkond leiab, et eri- ja ühisallahindlust ei ole mõistlik jagada investeeringute vahel, mis on tehtud kapitalirendiportfelli ja nõuetesse ostjate vastu.

**UNICREDIT LEASING SIA – ÄRIÜHINGU KONSOLIDEERIMATA JA KONTSERNI KONSOLIDEERITUD  
2010. MAJANDUSAASTA ARUANNE**
**Lisad (järg)**
**(17) OMAKAPITAL**
*Osakapital*

Seisuga 31. detsember 2010 oli osakapitali suurus 3 914 000 Lāti latti (2009: 400 000 Lāti latti) ja see koosnes 3914 osast, millest iga osa nimiväärtus oli 1000 Lāti latti ja mis kõik olid sisse makstud. 9. veebruaril 2010 suurendati osakapitali 3 514 000 Lāti latti võrra.

Kõikide osadega kaasneb võrdne õigus hääletada osanike koosolekul, võrdne õigus saada väljakuulutatud dividende ja võrdne õigus äriühingu ja kontserni ülejäänud varadele.

Osanikud seisuga 31. detsember 2010 ja 2009 olid järgmised.

|                                 | 2010<br>%   | 2009<br>%   |
|---------------------------------|-------------|-------------|
| AS UniCredit Bank               | 5%          | 49%         |
| UniCredit Global Leasing S.p.A. | 95%         | 51%         |
| <b>Kokku</b>                    | <b>100%</b> | <b>100%</b> |

**Kohustuslik reservkapital**

Kohustuslik reservkapital summas 448 000 Lāti latti koosneb jaotuskõlblikust reservist, mis saadi osanikelt 2002. aastal toetusena, et suurendada omakapitali.

**Osapõhised maksed**

4171 Lāti latti suurune osaoptsioonide reserv eraldatakse preemiaprogrammi jaoks, mis põhineb UniCredito Italiano S.p.A osadel (osaoptsioonid ja eeldatavasti tõusva väärtusega osad), mida kajastatakse omakapitali all ning mille õiglane väärtus arvutatakse arvestuspõhimõtetes kirjeldatud hindamismudelite ja turuhindade põhjal.

Kontserni UniCredit Group 2010. aasta pikaajalise preemiaprogrammi kohaselt on nõukogu esimehel (Janis Buks, astus tagasi 2. veebruaril 2011) ja juhatuse esimehel (Jevgenijs Belezjaks) nii 12 365 osa ulatuses osaoptsioone, mille omandi üleandmistähtaeg lõpeb juunis 2012, kui ka 4076 eeldatavasti tõusva väärtusega osa, mille omandi üleandmistähtaeg lõpeb detsembris 2011.

**(28) FINANTSVARADE JA -FINANTSKOHUSTUSTE ÕIGLANE VÄÄRTUS**

Äriühing ja kontsern on hinnanud oma finantsinstrumente vastavalt standardi IFRS 7 „Finantsinstrumentid: avalikustamine“ nõuetele, et teha kindlaks, kas on võimalik tähtaegade ja kuludega seotud piiranguid arvestades nende õiglased väärtused piisava usaldusväärsusega kindlaks määrata.

Äriühingul ja kontsernil ei ole läbi kasumiaruande õiglases väärtuses kajastatud finantsinstrumente ega müügivalmis väärtpabereid.

Kõikide muude finantsvarade ja -kohustuste hinnangulised õiglased väärtused arvutatakse hinnangulistel tulevastel rahavoogudel põhinevate diskonteeritud rahavoogude meetodi alusel ja sarnase instrumendi diskontomäärade alusel 31. detsembril 2010.

Õiglase väärtuse hindamise eesmärk on määrata ligikaudne summa, mille eest saaks finantsinstrumenti teadlike ja huvitatud osaliste vahel turuväärtuse põhimõttel sõlmitavas tehingus vahetada. Ent arvestades ebakindlust ja subjektiivse hinnangu kasutamist, ei tohiks õiglast väärtust tõlgendada realiseeritavana vahetul varade müügil või kohustuste arveldamisel.

Äriühingu ja kontserni kõikide finantsinstrumentide hinnangulised õiglased väärtused vastavad nende bilansilisele jääkmaksumusele seisuga 31. detsember 2010 ja 2009.

## **Sōltumatute audiitorite jāreldusotsus**

### **UniCredit Leasing SIA osanikele**

#### **Jāreldusotsus raamatupidamise aastaaruande kohta**

Oleme auditeerinud UniCredit Leasing SIA (edaspidi: āriūhing) konsolideerimata raamatupidamise aastaaruannet, mis koosneb konsolideerimata finantsseisundi aruandest seisuga 31. detsember 2010, nimetatud kuupāeva seisuga lōppenud majandusaasta konsolideerimata kasumiaruandest, konsolideerimata koondkasumiaruandest, konsolideerimata omakapitali muutuste aruandest ja konsolideerimata rahavoogude aruandest ning lisadest, samuti olulisemate arvestuspōhimōtete kokkuvōttest ning muudest selgitavatest lisadest, mis on esitatud lk 5–51. Oleme auditeerinud ka UniCredit Leasing SIA ja selle tūtarettevōtete (edaspidi: kontsern) konsolideeritud raamatupidamise aastaaruannet, mis koosneb konsolideeritud finantsseisundi aruandest seisuga 31. detsember 2010, nimetatud kuupāeva seisuga lōppenud majandusaasta konsolideeritud kasumiaruandest, konsolideeritud koondkasumiaruandest, konsolideeritud omakapitali muutuste aruandest ja konsolideeritud rahavoogude aruandest ning lisadest, samuti olulisemate arvestuspōhimōtete kokkuvōttest ning muudest selgitavatest lisadest, mis on esitatud lk 5–51.

#### *Juhtkonna vastutus raamatupidamise aastaaruande eest*

Juhtkond vastutab konsolideerimata ja konsolideeritud raamatupidamise aastaaruande koostamise ja ōiglasē esitamise eest kooskōlas Euroopa Liidu kehtestatud rahvusvaheliste finantsaruandluse standarditega ning sisekontrollisūsteemi eest, mida juhtkond peab vajalikuks, et vōimaldada pettusest vōi eksimusest pōhjustatud oluliste vigade ja ebatāpsusteta raamatupidamise aastaaruande koostamist.

#### *Audiitorite vastutus*

Meie ūlesanne on anda auditi tulemustele tuginedes omapoolne hinnang konsolideerimata ja konsolideeritud raamatupidamise aastaaruande kohta. Korraldasime auditi kooskōlas rahvusvaheliste auditeerimise standarditega. Nende kohaselt tuleb meil jārgida asjakohasē ēetikanōudeid ning audit planeerida ja lābi viia viisil, mis vōimaldab piisava kindlusega otsustada, kas raamatupidamise aastaaruanne sisaldab olulisi vīgu vōi ebatāpsusi.

Audit hōlmab toiminguid, mille kāigus saadakse tōendid raamatupidamise aastaaruandes esitatud summade ja muude nāitajate kohta. Valitud toimingud sōltuvad meie hinnangutest, sh raamatupidamise aastaaruandes pettusest vōi eksimusest pōhjustatud oluliste vigade ja ebatāpsuste esinemise riski hinnangust. Riski hindamisel analūūsime āriūhingu ja kontserni konsolideerimata ja konsolideeritud raamatupidamise aastaaruande koostamiseks ja ōiglasēks esitamiseks vajaliku sisekontrollisūsteemi sobivust antud asjaolude korral kohaste auditiprotseduuride vāljatōōtamiseks, ent ei avalda arvamust āriūhingu ega kontserni sisekontrollisūsteemi tōhususe kohta. Audit hōlmab ka konsolideerimata ja konsolideeritud raamatupidamise aastaaruande koostamisel kasutatud arvestuspōhimōtete ning āriūhingu ja kontserni juhtkonna raamatupidamishinnangute kriitilist analūūsi ning seisukohavōttu konsolideerimata ja konsolideeritud raamatupidamise aastaaruande esituslādi suhtes tervikuna.

KPMG Baltics SIA on Lāti piiratud vastutusega āriūhing ja Šveitsi ūhinguga KPMG International Cooperative (KPMG International) lepinguliselt seotud KPMG sōltumatute liikmesfirmade vōrgustiku liige.

**KPMG**

Oleme veendunud, et auditi käigus saadud tõendid on arvamuse avaldamiseks piisavad ja sobivad.

*Arvamus*

Meie arvates annab Euroopa Liidu kehtestatud rahvusvaheliste finantsaruandluse standardite kohaselt koostatud UniCredit Leasing SIA konsolideerimata raamatupidamise aastaaruanne olulises osas õiglase ülevaate äriühingu finantsseisundist seisuga 31. detsember 2010, nimetatud kuupäeval lõppenud majandusaasta tulemustest ja rahavoogudest.

Meie arvates annab Euroopa Liidu kehtestatud rahvusvaheliste finantsaruandluse standardite kohaselt koostatud UniCredit Leasing SIA konsolideeritud raamatupidamise aastaaruanne olulises osas õiglase ülevaate kontserni finantsseisundist seisuga 31. detsember 2010, nimetatud kuupäeval lõppenud majandusaasta tulemustest ja rahavoogudest.

**Järeldusotsus muude õigusaktidest tulenevate nõuete kohta**

Lisaks on meie kohustuseks hinnata, kas lk 4 esitatud konsolideeritud juhatuse aruandes (mille koostamine on juhtkonna kohustus) sisalduvad raamatupidamislikud andmed on kooskõlas konsolideeritud raamatupidamise aastaaruandega. Seoses konsolideeritud juhatuse aruandega piirdus meie töö ülalmainitud ulatusega ja hõlmas üksnes konsolideeritud raamatupidamise aastaaruandes esitatud teavet. Meie arvates on juhatuse aruanne kooskõlas konsolideeritud raamatupidamise aastaaruandega.
