## Raamatupidamise aastaaruande lisad

### Lisa 1 Arvestuspõhimõtted

#### Üldine informatsioon

The 2021 annual accounts of Scanron Import Export OÜ have been prepared in compliance with the Estonian Financial Reporting Standard, which rely on the internationally acknowledged accounting principles and their key requirements are established in the Accounting Act of the Republic of Estonia, which are supplemented by the guidelines issued by the Accounting Standards Board of the Republic of Estonia and the relevant regulations of the Estonian Government and the Ministry of Finance. The annual accounts have been prepared using the historical cost principle, unless otherwise indicated in the accounting policies below. Scanron Import Export OÜ uses income statement layout 1 given in Annex 2 to the Accounting Act. The annual accounts have been prepared in euro.

#### Raha

Cash in hand and current account balances in banks are recognised as cash and cash equivalents.

#### Välisvaluutas toimunud tehingud ning välisvaluutas fikseeritud finantsvarad ja -kohustised

The annual accounts have been prepared in euro.

#### Nõuded ja ettemaksed

Accounts receivable are assessed in the balance sheet based on the probability of their receipt. The receivables from each client are evaluated separately, taking into account the information available about the client's solvency. A reserve has been formed to cover doubtful accounts and uncollectible accounts have been written off the balance sheet. There were no doubtful accounts or uncollectible accounts in the financial year.

#### Varud

#### Varude soetusmaksumuse arvestuspõhimõtted

#### Materaalsed ja immateriaalsed põhivarad

Tangible fixed assets are assets with a useful life of more than one year whose cost starts from 500 euro and which are used in the economic activities of the company. Assets whose useful lives exceed 1 year but whose cost is less than 500 euro are recognised as low value inventory (under inventories) and written off to the extent of 100% at the moment they are taken in use. Tangible fixed assets are initially registered at their acquisition cost which consists of the purchase price (incl. customs duty and other non-refundable taxes) and expenses directly related to acquisition, which were incurred in bringing the assets to their operating condition and location. Tangible fixed assets are recognised in the balance sheet at their acquisition cost less accumulated depreciation.

#### Põhivarade arvelevõtmise alampiir 500

#### Finantskohustised

All financial liabilities (trade creditors, loans raised, accrued expenses, and other short-term and long-term payables) are initially recorded at their acquisition cost, which also comprises all the direct expenses related to the acquisition. The financial liabilities are thereafter recognised using the adjusted acquisition cost method. The adjusted acquisition cost of short-term financial liabilities is generally equal to their nominal value and therefore short-term financial liabilities are recognised in the balance sheet in the amounts subject to payment.

#### Eraldised ja tingimuslikud kohustised

Foreign currency transactions are recognised using the official exchange rates quoted by the Bank on the date of the transaction. Assets and liabilities denominated in foreign currencies have been revalued in euro using the official exchange rates of the Bank of Estonia as of the balance sheet date. Gains and losses on foreign currency transactions are recognised in the income statement as operating revenue and charges for the period in question.

#### **Tulud**

Revenue from sales of goods is recognised when all significant risks associated with ownership have transferred to the buyer and the sales revenue and transaction costs can be reliably determined. Revenue from the sales of a service is recognised after provision of the service.

#### **Seotud osapooled**

Parties are considered to be related if one party exercises either control or significant influence on the business-related decisions of the other party, incl. the owner, members of the management board, their family members and companies that the aforementioned parties either control or exercise significant influence on.

## **Lisa 2 Tööjöukulud**
