Valuutakursside ja intressimäärade muutumise risk

Tehingud tarnijate ja klientidega toimuvad Eesti kroonides, mistõttu on valuutakursi risk madal.

Investeeringud

Aruandeperioodil investeeriti materiaalsesse põhivarasse kokku 1,7 mln krooni. Valdava osa investeeringutest moodustasid muu materiaalse põhivara soetused.

Personal

Oracle East Central Europe Limited Eesti filiaali keskmine töötajate arv majandusaastal oli 21 töötajat. 2006. aastal moodustasid ettevõtte tööjõukulud 12,3 mln krooni, vähenesed aastaga 9%. Tööjõukulude vähenemine oli tingitud töötajate arvu vähenemisest 9% võrreldes eelmise aastaga.

Ettevõtte juhatuse töötasud moodustasid majandusaastal 2,0 mln krooni mis on 5% rohkem kui eelmisel aastal. Juhatuse ja nõukogu liikmetele nendega lepingu lõpetamise korral hüvitist ei maksta.

Raamatupidamise aastaaruande lisad

Lisa 1. Raamatupidamise aastaaruande koostamisel kasutatud arvestusmeetodid ja hindamisalused

Oracle East Central Europe Limited Eesti filiaali 2006. aasta raamatupidamise aastaaruanne on koostatud kooskõlas rahvusvaheliste finantsaruandluse standarditega.

Oracle East Central Europe Limited Eesti filiaali kasumiaruanne on koostatud olemuspõhisel kululiigitusmeetodil ja neid ei ole jaotatud vastavalt filiaali erinevatele funktsioonidele.

Raamatupidamise aastaaruanne on koostatud tuhandetes Eesti kroonides.

Arvestuspõhimõtete ja esitusviiside muutus

2006. aastal arvestuspõhimõtteid ja esitusviise ei ole muudetud.

Finantsvarad ja –kohustused

Finantsvaradeks loetakse raha, lühiajalisi finantsinvesteeringuid, nõudeid ostjate vastu ja muid lühi- ja pikaajalisi nõudeid. Finantskohustusteks loetakse tarnijatele tasumata arveid ning lühi- ja pikaajalisi võlakohustusi.

Finantsvarad ja –kohustused võetakse algselt arvele nende soetusmaksumuses, milleks on antud finantsvara või –kohustuse eest makstud või saadud tasu õiglane väärtus. Algne soetusmaksumus sisaldab kõiki finantsvara või –kohustusega otseselt seotud tehingukulutusi.

Finantskohustused kajastatakse bilansis korrigeeritud soetusmaksumuses.

Finantsvara eemaldatakse bilansist siis, kui ettevõtte kaotab õiguse finantsvarast tulenevatele rahavoogudele või ta annab kolmandale osapoolle üle varast tulenevad rahavood ning enamiku finantsvaraga seotud riskidest ja hüvedest. Finantskohustus eemaldatakse bilansist siis, kui see on rahuldatud, lõpetatud või aegunud.

Finantsvara oste ja müüke kajastatakse järjepidevalt väärtuspäeval st päeval, mil ettevõtte saab ostetud finantsvara omanikuks või kaotab omandiõiguse müüdud finantsvara üle.

Raha ja raha ekvivalendid

Raha ning raha ekvivalentidena kajastatakse raha kassas ja pangas, nõudmiseni hoivuseid, lühiajalisi (alla 3 kuulise lunastustähtajaga) pangadeposiite ja rahaturufondi osakuid, millel puudub oluline turuväärtuse muutuse risk. Rahavoogude aruandes kajastatakse rahavoogusid äritegevusest kaudsel meetodil. Investeerimis- ja finantseerimistegevusest tulenevaid rahavoogusid kajastatakse otsemeetodil.

Nõuded ostjate vastu

Nõudeid ostjate vastu kajastatakse bilansis korrigeeritud soetusmaksumuses. Ostjatelt laekumata arved on bilansis hinnatud tõenäoliselt laekuvatest summadest lähtudes. Seejuures hinnatakse iga kliendi laekumata arveid eraldi, arvestades teadaolevat informatsiooni kliendi maksevõime kohta. Ebatõenäoliselt laekuvad nõuded on kajastatud üldhalduskuludes. Lootusetud nõuded on kantud bilansist välja. Varem alla hinnatud ebatõenäoliste nõuete laekumisi kajastatakse ebatõenäoliste nõuete kulu vähenemisenähtena.

Materiaalne põhivara

Materiaalse põhivara kajastamisel bilansis on selle soetusmaksumusest maha arvatud akumulieeritud kulum ja vara väärtuse langusest tulenevad allahindlused.

Olulisuse printsiibist lähtudes kajastatakse põhivarana need varaobjektid, mille soetusmaksumus ületab 11 000 krooni ja mille kasulik eluiga on üle ühe aasta. Madalama soetusmaksumusega või

lühema kasuliku elueaga varaobjektid kantakse kasutusse võtmisel kuluks ning nende üle peetakse arvestust bilansiväliselt.

Juhul, kui materiaalse põhivara objekt koosneb üksteisest eristatavatest olulistest komponentidest, millel on erinevad kasulikud eluead, võetakse need komponendid raamatupidamises arvele eraldi varaobjektidena, määrates neile eraldi amortisatsiooninormid vastavalt komponentide kasulikule elueale.

Kui põhivara objekti valmistamine vältab pikema perioodi ja seda finantseeritakse laenuga, lülitatakse laenukasutuse kulutused objekti soetusmaksumusse. Vara maksumusse kapitaliseeritakse laenukasutuse kulutused, mis on arvestatud alates vara valmistamise alustamise hetkest kuni vara valmimiseni.

Ettevõtte kasutab materiaalse põhivara amortiseerimisel lineaarset meetodit. Materiaalse põhivara gruppidele on üldjuhul määratud järgmised kasulikud eluead:

Materiaalse põhivara grupp	Kasulik eluiga
Maa	ei amortiseerita
Ehitised	20 - 50 aastat
Rendipindade parendused	rendi periood
Arvutid	2 aastat
Kontoritehnika	5 aastat
Mööbel	5 aastat
Muu põhivara	3 - 5 aastat

Materiaalse põhivara objekti spetsiifika tõttu võib selle kasulik eluiga erineda muu sarnase grupi omast. Sellisel juhul vaadatakse seda eraldiseisvana ning määratakse talle sobiv amortisatsiooniperiood.

Materiaalsele põhivarale määratud amortisatsiooninormid vaadatakse üle, kui on ilmnunud asjaolusid, mis võivad oluliselt muuta põhivara või põhivaragrupi kasulikke eluiga. Hinnangute muutuste mõju kajastub aruandeperioodis ja järgnevatel perioodides.

Kui vara lõppväärtus ületab tema bilansilist jääkmaksumust, lõpetatakse vara amortiseerimine; amortiseerimist alustatakse uuesti hetkest, mil vara lõppväärtus on langenud alla tema bilansilise jääkmaksumuse.

Kui materiaalse põhivara objektile on tehtud selliseid kulutusi, mis vastavad materiaalse põhivara mõistele, siis need kulutused lisatakse põhivara objekti soetusmaksumusele. Jooksva hoolduse ja remondiga kaasnevad kulutused kajastatakse aruandeperioodi kuludes.

Kui materiaalse põhivara objektile vahetatakse välja mõni oluline komponent, lisatakse uue komponendi soetusmaksumus objekti soetusmaksumusele, eeldusel, et see vastab materiaalse põhivara mõistele. Asendatav komponent kantakse bilansist maha. Kui asendatava komponendi soetusmaksumus ei ole teada, hinnatakse maha kantavat maksumust lähtudes asendamise hetke soetusmaksumusest, arvestades maha hinnangulise kulumi.

Vara väärtuse vähenemine

Igal bilansipäeval hindab ettevõtte juhtkond, kas on märke, mis võiksid viidata vara väärtuse langusele. Juhul kui on kahtlusi, mis viitavad varaobjekti väärtuse langemisele alla tema bilansilise väärtuse, viiakse läbi vara kaetava väärtuse test. Vara kaetav väärtus on võrdne kõrgemaga kahest näitajast: kas vara õiglasest väärtusest (miinus müügikulutused) või diskonteeritud rahavoogude põhjal leitavast kasutusväärtusest. Kui testimise tulemusena selgub, et vara kaetav väärtus on madalam tema bilansilisest väärtusest, hinnatakse põhivara objekt alla tema kaetavale väärtusele. Juhul kui vara väärtuse testi ei ole võimalik teostada üksiku varaobjekti suhtes, leitakse kaetav väärtus

väikseima varade grupi (raha genereeriva üksuse) kohta, kuhu see vara kuulub. Vara allahindlusi kajastatakse aruandeperioodi kuluna.

Kui varem alla hinnatud varade kaetava väärtuse testi tulemusena selgub, et kaetav väärtus on tõusnud üle bilansilise jääkmaksumuse, siis tühistatakse varasem allahindlus ning suurendatakse vara bilansilist maksumust. Ülempiiriks on vara bilansiline jääkmaksumus, mis oleks kujunenud arvestades vahepealsetel aastatel normaalset amortisatsiooni.

Müügiotel põhivara

Müügiotel põhivarana kajastatakse bilansis sellised materiaalse ja immateriaalse põhivara objektid, mis väga tõenäoliselt müüakse lähema 12 kuu jooksul.

Müügiotel põhivara amortiseerimine lõpetatakse vara ümberklassifitseerimise hetkel. Müügiotel põhivara kajastatakse bilansis käibevara hulgas, kas bilansilises jääkmaksumuses või õiglases väärtuses (miinus hinnangulised müügikulutused), lähtudes sellest kumb on madalam.

Rendiarvestus

Kapitalirendiks loetakse rendisuhet, mille puhul kõik olulised vara omandiga seonduvad riskid ja hüved kanduvad üle rentnikule. Ülejäänud rendilepinguid käsitletakse kasutusrendina.

Ettevõtte kui rendileandja

Kapitalirendi alusel väljarenditud vara kajastatakse bilansis nõudena kapitalirenti tehtud netoinvesteeringu summas. Saadavad rendimaksud jagatakse kapitalirendinõude põhiosa makseteks ja finantstuluks. Finantstulu kajastatakse rendiperioodi jooksul.

Kasutusrendi tingimustel väljarenditud vara kajastatakse bilansis tavakorras, analoogselt muule ettevõtte bilansis kajastatavale varale. Kasutusrendi maksed kajastatakse rendiperioodi jooksul lineaarselt tuluna.

Ettevõtte kui rentnik

Kapitalirendi alusel renditud vara kajastatakse bilansis vara ja kohustusena renditud vara õiglase väärtuse summas. Makstavad rendimaksud jagatakse finantskuluks ja kohustuse vähendamiseks. Finantskulud kajastatakse rendiperioodi jooksul.

Kasutusrendi maksed kajastatakse rendiperioodi jooksul lineaarselt kuluna.

Tulude arvestus

Tulu kaupade müügist kajastatakse siis, kui olulised omandiga seonduvad riskid ja hüved on läinud üle ostjale ning müügitulu ja tehinguga seotud kulutusi on võimalik usaldusväärselt mõõta.

Tulu teenuste müügist kajastatakse lähtudes valmidusastme meetodist, teenuse osutamisest saadavad tulud ja kasum kajastatakse proportsionaalselt samades perioodides nagu teenuse osutamisega kaasnevad kulutused.

Intressitulu kajastatakse lähtudes vara sisemisest intressimäärast.

Välisvaluutas toimunud tehingute kajastamine

Välisvaluutas fikseeritud tehingute kajastamisel on aluseks võetud tehingu toimumise päeval kehtinud Eesti Panga valuutakursid. Välisvaluutas fikseeritud varad ja kohustused seisuga 31. mai 2006 on ümber hinnatud Eesti kroonidesse bilansipäeval kehtinud Eesti Panga valuutakursside alusel. Välisvaluutatehingutest saadud kasumid ja kahjumid on kasumiaruandes kajastatud perioodi tulu ja kuluna.

Rahavoogude aruanne

Rahavoogude aruanne on koostatud kaudsel meetodil - äritegevuse rahavoogude leidmisel on korrigeeritud ärikasumit, elimineerides mitterahaliste tehingute mõju ja äritegevusega seotud käibevarade ning lühiajaliste kohustuse saldode muutused.

Bilansipäevajärgsed sündmused

Raamatupidamise aastaaruandes kajastuvad olulised varade ja kohustuste hindamist mõjutavad asjaolud, mis ilmnesisid bilansi kuupäeva, 31. mai 2006 ja aruande koostamise kuupäeva vahemikul, kuid on seotud aruandeperioodil või varasematel perioodidel toimunud tehingutega.

Bilansipäevajärgsed sündmused, mida ei ole varade ja kohustuste hindamisel arvesse võetud, kuid mis oluliselt mõjutavad järgmise majandusaasta tulemust, on avalikustatud aastaaruande lisades.

This report is made solely to the company's members, as a body, in accordance with section 193 of the Companies Act, 1990. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditors' report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of directors and auditors

We report to you our opinion as to whether the financial statements give a true and fair view and are properly prepared in accordance with the Companies Acts, 1963 to 2006. We also report to you our opinion as to: whether proper books of account have been kept by the company; whether proper returns adequate for our audit have been received from branches of the company not visited by us; whether at the balance sheet date there exists a financial situation which may require the convening of an extraordinary general meeting of the company; and whether the information given in the Directors' Report is consistent with the financial statements. In addition, we state whether we have obtained all the information and explanations necessary for the purposes of our audit and whether the financial statements are in agreement with the books of account and returns.

We also report to you if, in our opinion, any information specified by law regarding directors' remuneration and other transactions is not disclosed and, where practicable, include such information in our report.

We read the Directors' Report and consider the implications for our report if we become aware of any apparent misstatements within it.

Basis of audit opinion

We conducted our audit in accordance with International Standards on Auditing (UK and Ireland) issued by the Auditing Practices Board. An audit includes examination, on a test basis, of evidence relevant to the amounts and disclosures in the financial statements. It also includes an assessment of the significant estimates and judgments made by the directors in the preparation of the financial statements, and of whether the accounting policies are appropriate to the company's circumstances, consistently applied and adequately disclosed.

We planned and performed our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or other irregularity or error. In forming our opinion we also evaluated the overall adequacy of the presentation of information in the financial statements.

ORACLE EAST CENTRAL EUROPE LIMITED

NOTES TO THE FINANCIAL STATEMENTS

31 May 2006

1. ACCOUNTING POLICIES

(a) *Accounting convention*

The financial statements are prepared under the historical cost convention.

(b) *Fixed assets*

Tangible fixed assets are carried at cost less accumulated depreciation. The cost of an asset is made up of the purchase price of the asset plus any costs directly attributable to bringing the asset into working condition for its intended use. Depreciation is calculated to write off the cost of tangible fixed assets over their expected useful lives as follows:

Furniture	4 years
Computer Equipment	2 years

(c) *Foreign currencies*

The financial statements are prepared in US dollars (US\$). The company operates a number of foreign branches in overseas countries. Where the foreign branches operate as an extension of the company's trade and their cash flows have a direct impact upon those of the company the temporal method is used to retranslate the results of the branches.

Transactions denominated in foreign currencies are recorded in US dollars at the exchange rates ruling at the dates of the transactions or, where appropriate, at the rates of exchange in related forward exchange contracts. Monetary assets and liabilities denominated in foreign currencies are translated at the exchange rates ruling at the balance sheet date or, where appropriate, at the rates of exchange in related forward exchange contracts. Any gains or losses arising from foreign currency translation and on settlement of amounts receivable and payable in foreign currencies are included in the profit and loss account.

(d) *Revenue recognition*

The company derives revenue from software licence and support services. Licence revenues represent fees earned for granting customers licenses to use the company's software products. Support revenues include product support services; licence updates and outsourcing services.

Software licence revenue is recognised when the company enters into a legally binding agreement with a customer for the use of the software, the products or services have been delivered, customer payment is free of contingencies or significant uncertainties and collection is probable.

Revenue for support services is generally recognised as the services are performed. If there is a significant uncertainty about the project completion revenue is deferred until the uncertainty is sufficiently resolved.

NOTES TO THE FINANCIAL STATEMENTS

31 May 2006 (Continued)

1. ACCOUNTING POLICIES (Continued)

(d) *Revenue recognition (continued)*

For arrangements with multiple elements, revenue is allocated to each element of the transaction based upon its fair value. Fair value for all elements of an arrangement is based upon the normal pricing practice for these products and services when sold separately. If the fair value of any undelivered element cannot be measured objectively then revenue is deferred until all elements are delivered, services have been performed or until fair value can be objectively determined. When the fair value of a licence has not been established, the residual method to recognise revenue is adopted if the fair value of all undelivered elements is determinable. Under the residual method, the fair value of the undelivered elements is deferred and the remaining portion of the arrangement fee is allocated to the delivered elements and is recognised as revenue.

(e) *Leasing commitments*

Rentals payable under operating leases are charged to the profit and loss account in the period to which they relate.

(f) *Taxation*

The charge for taxation is based on the profit or loss for the year and takes into account taxation deferred because of timing differences between the treatment of certain items for taxation and accounting purposes.

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events that result in an obligation to pay more, or a right to pay less, tax in the future have occurred at the balance sheet date.

Deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax is measured on a non-discounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

(g) *Pension costs*

Pension benefits are funded over relevant employees' period of service by way of contributions to a defined contribution scheme. Contributions are charged to the profit and loss account in the period to which they relate.

(h) *Cash flow statement*

FRS 1, "Cash flow Statement", exempts subsidiary undertakings from the requirement to prepare a cash flow statement where 90% or more of the voting rights are controlled by a group that prepares publicly available consolidated financial statements in which the subsidiary undertaking's results are included. The company has availed of this exemption.
